

EAST END GUN CLUB GROUND RUINED BY VANDALS' WORK

Damage to the Amount of Several Hundred Dollars Done by Some Unknown Persons.

THE MISCHIEF ALLEGED TO BE DUE TO SPITE

Destruction to the amount of from \$300 to \$600 was wrought on the quarters of the Columbian Gun club in the East End some time after dark last night. The trap house, pull house and every other feature of the grounds are reported destroyed and this afternoon members of the club are making an effort to gain a clue to the perpetrators of the contemptible work.

The club yesterday afternoon held its regular weekly shoot and when the members left the grounds everything was in perfect condition. They knew nothing of what had been done until about noon when Dr. Jackson was notified by a resident of the East End. The informant stated that the grounds were ruined so far as a shooting park is concerned. The grounds were fitted

up at a cost of nearly \$600 and for shooting purposes were possible the best equipped in this section of the country.

While the members of the club do not know who was guilty of the dastardly act, they are prone to believe it was the work of one of the parties who have been objecting of late to the shooting. It will be recalled that council was asked a few weeks ago to pass an ordinance or resolution giving the club the right to shoot on the premises, as certain persons had threatened action in the court of the mayor, and council did as requested.

Solicitor Davidson says that the act is punishable by a penitentiary sentence, and the members of the club say they will run down the vandals at all hazards.

or other business purposes, not including saloons, or 25 per cent or more of said foot frontage on said opposite side is not occupied for residence purposes. Property devoted to educational, religious or charitable uses, shall, for the purpose of this act, be held to be occupied for residence purposes and property other than residences devoted to other than the above specified uses shall for the like purposes be deemed to be occupied for business purposes.

"There is one objection to this report," said Attorney Wheeler, of the Anti-Saloon League. "It classifies public parks, such as Wade park, in Cleveland, and other parks of this kind, as business property, even though there is not a building upon them and not one cent's worth of business done there in a year. The report provides that property devoted to educational, religious and charitable uses shall be considered residence property. With much more force should public parks be considered residence property."

Drowned in the Beaver River.

Mayor Weaver this morning received a letter from B. Lazarus, the county detective of Rochester, Pa., asking him to send any information gain concerning the drowning of Louis Brown, a war veteran, who fell into the Beaver river on April 1. Following is a description of the drowned man: Five feet, five inches tall; weight, 130 pounds; age, 67; left hand crippled with thumb off; bullet hole in muscle of right arm; ship tattooed on calf of one leg and anchor on one hand, and other similar marks.

No More Opinions This Week.

Lisbon, April 8.—(Special.)—The judges of the circuit bench have decided not to give their opinions in the remaining cases here until some time next week and left for their respective homes this morning. They will return Monday evening and on Tuesday will hear evidence as to the alleged insanity of the defendants in the oil injunction case of the Salem Iron company, of Leetonia, against H. H. Hyland et al.

OFFICER KEEPING CLOSE TAB ON BOYS WHO PLAY HOOKEY

Truant Officer Beardmore is starting on his busiest season of the year. With the advent of spring it is hard to keep a full attendance in the schools, the boys being overcome with an almost uncontrollable desire to spend the days along the banks of a fishing pond or roaming through the woods for wild flowers and many other attractions more enjoyable than sweating over the multiplication table.

This spring a determined effort will be made to enforce the truancy laws, and if the archers succeed in escaping them it will be no fault of the officials. Four cases are now pending in the court of Squire McLane and numerous others will follow if there is not a decided change in the situation. The cases before Justice McLane are those of William and Walter Wright, Howard Pinkerton and his father, William Pinkerton, who is charged with failing to force his boy to attend school.

The Wright boys have given the officers more trouble than any other pair in the city. They are on the roll of an East End school and now have together more than 100 absent marks against them. William has played "hookey" 41 times during the past three months and Walter 67 times. The boys were taken before the justice last evening but sentence was suspended owing to the intercession made for them by their grandmother.

The Pinkerton boy is a close second to the Wright brothers. The truant officer found that he had been absent for a long time and after investigating the case concluded that the father was partially to blame. As a result the latter was arrested by Constable Powell and taken before the justice. He and his son were released on their own recognizance to appear later. Meantime further investigation will be made.

ROUTINE BUSINESS ALONE BEFORE IT

Executive Board of the N. B. of O. P. Is In Session Today.

A short session of the executive committee of the N. B. of O. P. was held at headquarters this morning. The out-of-town members reached here in time for the meeting and all the local officers were in attendance. Routine business was transacted and after an adjournment for dinner the work was resumed.

President Duffy stated this afternoon that there would be nothing in the proceedings to give out for publication. The meeting has no special significance, and is being held simply to wind up the affairs of the organization for the year.

It is thought that the session this afternoon will finish all the business in hand. The out-of-town officials will remain here until tomorrow, however.

NEEDLE IN THE FOOT

Young Woman of the East End Meets With a Very Serious Mishap.

Miss Lottie Trenery, who lives on Pennsylvania avenue, East End, was the victim of a painful accident this morning. While walking across the floor at her home she stepped on a black needle, which penetrated her foot to the depth of an inch and in her attempt to extract it, the needle broke off. It is feared that blood poisoning may set in.

NEW STORM SEWER IS A NECESSITY

Bradshaw Avenue Residents Entitled to the Relief Which They Ask.

A WAY TO SAVE MONEY

A meeting of the finance committee of council will likely be held before next Tuesday evening for the purpose of thoroughly investigating the proposition offered by the abutting property holders along Bradshaw avenue relative to the construction of a storm water sewer. Mr. Moon, a member of the committee, stated this morning that some action would be taken and that he heartily favored the acceptance of the proposal.

The sewer is a necessity. And it will be erected before long. If council does not order the construction of it within a short time there is every reason to believe that the state board of health will carry out its threat to compel it to make the improvement. By accepting the proposition of the property holders the city will save about \$2,000, and as it is a certainty that the sewer must be laid, it is hard to determine why no action has been taken. A prominent citizen said today:

"It is the duty of council to take up the matter and push it along. The members of that body should be compelled for their economical stand taken on every financial problem that has been presented during the past year, but they should not be too close. It might result in a big expenditure later on. If the city can save \$2,000 by accepting the proposition of the property holders along Bradshaw avenue the councilmen should certainly vote for the construction."

Mayor Weaver is heartily in favor of accepting the proposal and advised council to that effect at the last meeting. The finance committee realizes the situation and no doubt will report favorably on the question at the next regular meeting.

IN THE FIRST CLASS

East Liverpool Postoffice Receipts Have Reached a Phenomenally Large Figure.

The receipts of the East Liverpool postoffice for the year ending March 31 have been \$43,531.02, a phenomenally large figure, putting the office in the first class, with \$3,500 more than the required \$40,000.

This showing ought to be an inducement to congress to hasten the government building.

Meeting of Assessors.

Lisbon, April 8.—(Special.)—Assessors of personal property in the county will be notified to assemble at the auditor's office Monday, April 11, at 1 o'clock, to receive their supplies and instructions.

MAYOR IS BUSY UPON REPORTS

Preparing a Statement of the City Finances and Other Matters.

RIGHT TO REVISE ITEMS

Belongs to the Executive, and the Task Confronting Him Is By No Means An Easy One—Views on Wine Room Bill Forthcoming.

In taking care of the clerical work incident to his position Mayor Weaver is again head over heels in business. At no time since he assumed the duties of chief executive has he been so rushed and it is a problem whether or not he will complete the work he has planned. Until next Tuesday evening he will be compelled to devote the most of his time in getting reports and communications ready for the city council.

He is today preparing a statement of the finances of the municipality and such other information relating thereto. A provision of the code compels him to submit the statement. It will be in the form of an annual budget, which will give the exact condition of the city's wealth. The budget will be made up from the reports of the several boards recently submitted to the mayor and auditor for their approval. These reports have been in the form of estimates and to make the proper calculation is by no means an easy job. The mayor has the right to revise and change any of the items in the annual estimates furnished to him by the directors and officers of the municipality, but he has not the right to increase the total amounts.

After completing the budget the mayor will devote some time in preparing a communication, with the wine room ordinance as his theme. The mayor is yet up in arms over the riddling given his ordinance by the councilmen and he will take advantage of the opportunity on Tuesday evening of explaining his position. It is not unlikely that he will score the members and he will no doubt be strong in his denunciation of their work.

The councilmen feel that they have acted wisely, and will undoubtedly reply to the assaillment.

SECRETARY POLLARD OFFERS RESIGNATION

Proposes to Leave the Local Y. M. C. A. on the First of Next Month.

H. H. Pollard, general secretary of the local Y. M. C. A., at a meeting of the directors last evening tendered his resignation, to take effect May 1. His assistant, Otto Largent, will have charge for the present, and may be elected permanent secretary.

Mr. Pollard's resignation comes as something of a surprise, as his work has been good and he is popular with the association membership. He states that the climate here does not agree with his health, and this and other reasons have induced him to resign.

THE CASE DROPPED

Mrs. Waters Gives a Peace Bond and Mrs. Oswald Won't Prosecute.

Mrs. Jennie Oswald yesterday afternoon decided to withdraw the charges preferred against Mrs. Jennie Waters in the court of Mayor Weaver, providing the defendant would give a peace bond. Mrs. Waters was charged with threatening to kill Mrs. Oswald with a butcher knife. The latter intended to have her severely punished for the threat, but when she thought of the condition in which the Waters children would be left, she concluded to let the case drop.

Mrs. Waters will give bond today and the case will die.

CHIEF WYMAN BETTER

Has Nearly Recovered and Proposes to Go on Duty Again on Monday.

Chief of Police John W. Wyman, ill-natured and ill, will be on duty next Monday. The ruptured blood vessel has assumed normal conditions and there is no doubt of the officer's permanent recovery.

FOR THE PLAINTIFF FOR \$67 AND COSTS

Verdict in the Union Land Company's Suit Against Land Mary Wilshaw.

The hearing in the case of the Union Land company versus George and Mary Wilshaw was given yesterday afternoon. A verdict was rendered in favor of the plaintiff in the sum of \$67.75 and costs. Notice of appeal was made and it is very probable that the case will go to the common pleas court at Lisbon.

The case is one which involves the payment for dirt furnished to fill in along the foundation of a house built by the Wilshaws in the Croxall addition, located along California Hollow. The defense claimed that Mr. Croxall had been asked to supply the dirt for filling in the property, but it was proven to the satisfaction of the court that Mr. Croxall had been asked to secure them the dirt and he done so from the land company. It was proven to the satisfaction of the court that the filling had been supplied and he rendered his decision accordingly.

Sale of Land Approved.

Lisbon, April 8.—(Special.)—The sale of 46.5 acres in Madison township by David A. Pritchard, of Lisbon, as guardian of Myrtle Williams et al. of East Liverpool, has been approved. The premises were appraised at \$1,129.75 and were sold to Robert Croft for \$1,975.

FUNDS ARE LOW AND WORK NEEDED

Board of Public Service Puzzled to Make Necessary Street Repairs.

MUCH MONEY REQUIRED

Anxious to get the streets and other thoroughfares of the city repaired before the advent of summer, the board of public service is in a state of worry owing to the depleted funds appropriated for that purpose. To place the paving in as good condition as before the recent floods will require hundreds of dollars, and the board is trying to devise a plan by which the amount can be raised.

No estimate of the cost of the improving has been made for the fact that there is no plan available at the present time by which the money can be secured, but the board will during the next few days make an estimate and council will more than likely be applied to for help. It was the intention of the board to wait until the city receives the money from the county bridge fund, but it has been learned that this money can be used only for bridge purposes and as a result council will be looked to for a special appropriation, it to be made under the emergency clause.

Aside from scores of sidewalks and other places that have been damaged by the heavy rains, the streets leading from the hill districts suffered the worst. Calcutta road, Avondale street, Bradshaw avenue, the Lisbon road, Pleasant street and Jethro street are impaired to a great degree and much money will be necessary to repair them. For a part of the repair two local plumbing firms will have to bear the cost and the East Liverpool railway company will have to pay for the repair of the Lisbon road. This will entail the cost to the city considerable and the board of service proposes to see that those responsible in any manner for any damage are compelled to pay for it.

An Error in a Deed.

Lisbon, April 8.—(Special.)—A petition was filed in court here today by J. M. Dickinson, of Lisbon, as attorney for Sophia Crook against Fannie Johnson, Cletus Crook, et al., asking that the court authorize the correction of an erroneous description in a deed. On November 11, 1869, Samuel Crook, now deceased, sold to Charles Crook, also now deceased, 53.23 acres in section 20 of Fairfield township for \$500. Through a mistake this tract is described as being in section 39.

NEW CAR LINE WILL APPLY TO COUNCIL FOR FRANCHISE

Newell Bridge Projectors Expected to Have Their Ordinance Ready for Submission Soon.

THE PROBABLE ROUTE OF THE NEW ROAD

At an early meeting of the city council a franchise will be asked for to allow the building of an electric street railway line over certain streets of this city. The street car line will be for the purpose of conducting passengers from the Diamond to the west end of the city and over the new bridge which it is proposed crossing the river to the Newell tract. The franchise will be asked by Marcus Aarons.

Already an effort is being made to secure the signature of the property owners along the streets which the bridge company wishes to traverse from the Ohio approach to the Diamond, and it is understood that the promoters are not finding clear sailing over the streets they would like to have the line constructed over, but they are taking up other routes with a view to reaching the same end.

It is the understood intention of the bridge company to have the street railway line cross the bridge and traverse Fifth street to Washington, there to

join with the new line of C. A. Smith, who has already secured a franchise along Fifth street to Market and extending east to the state line. It is not probable that the original intention can be carried out, of having the lines connect on Fifth street, as there is considerable opposition, and it is not expected that the signature of a two-thirds of the majority of property owners can be secured.

Another route is proposed, however, which is meeting with signatures. This route takes in Fifth street as far east as Monroe, then south on Monroe to Fourth and east on the latter street to Washington. Those who are handling the papers along this route claim that they are meeting with little or no opposition.

It is hardly expected that the franchise will be asked for at the next meeting of the council, as the right for the use of the lots in the old cemetery will come up at that time, but the franchise proposition will not be delayed longer than the meeting following.

Mahon in St. Aloysius church, were largely attended. Manley's band, of which Mr. Roberts was a member, paid the last tribute to his memory by attending the services and rendering appropriate music.

THREE EMPLOYEES KILLED BY EXPLOSION

Kansas City, April 8.—(Special.)—James Brown, the Hawaiian who murdered his stepdaughter, was to have been hanged today, but was respite until May 6.

MASS MEETING THIS EVENING PROMISES TO BRING CROWDS

Interest in the mass meeting of indignant Republicans of East Liverpool and Wellsville to be held this evening has been growing during the past few days, and has now reached a point where it is doubtful if the spacious hall of the Turner society will accommodate the big crowd.

Wellsville supporters of Prof. J. L. MacDonald, who are leading the independent movement, will come to this city by special cars on the East Liverpool railroad. The East Liverpool enthusiasts will join forces with them and the meeting will probably be called to order about 8 o'clock.

An outline of the business before the meeting has not been framed up, but will consist of the appointment of a number of committees to carry on the work, and it is likely a move will be inaugurated to have the name of Prof. MacDonald placed on the ticket for the general election. The East Liverpool party men will be guided to a great extent, however, by the wishes of the Wellsville leaders, and it is certain the meeting will not be adjourned until everything necessary has been done that will contribute to the success of the independent candidate for county auditor.

EAST END GUN CLUB GROUND RUINED BY VANDALS' WORK

Damage to the Amount of Several Hundred Dollars Done by Some Unknown Persons.

THE MISCHIEF ALLEGED TO BE DUE TO SPITE

Destruction to the amount of from \$300 to \$600 was wrought on the quarters of the Columbian Gun club in the East End some time after dark last night. The trap house, pull house and every other feature of the grounds are reported destroyed and this afternoon members of the club are making an effort to gain a clue to the perpetrators of the contemptible work.

The club yesterday afternoon held its regular weekly shoot and when the members left the grounds everything was in perfect condition. They knew nothing of what had been done until about noon when Dr. Jackman was notified by a resident of the East End. BRANNOCK BILL AS AMENDED

Victory for the Anti-Saloon People Before the Judiciary Committee.

FOR PASSAGE NEXT WEEK

Columbus, April 8.—(Special).—The Brannock district local option bill was favorably reported to the senate yesterday by the judiciary committee of that body with a new amendment adopted by the committee after the Shallenberger amendment, adopted by the sub-committee, had been rejected. This is an anti-Saloon League victory. The bill will be up for passage next Tuesday afternoon.

The members of the majority committee signing the new amendment were Stewart, West, Ricketts, Connell, Heinlein, Chamberlain, Harrison and Overturf. Those not signing were Cassatt, Shallenberger, Chapman, Carter and Houck.

The amendment pertaining to the definition of "residence district" follows:

"And further, such residence district shall not contain the property or premises abutting on a street lying beyond two consecutive cross or intersecting streets, or extending for a distance of not less than 500 feet along such street on which said premises abut, whenever 75 per cent of the foot frontage of such abutting property is occupied for and devoted to manufacturing, mercantile, or other business purposes, not including saloons, and on the opposite of said portion of said street on which said property abuts either 75 per cent of the foot frontage abutting thereon is occupied for and actually devoted to manufacturing, mercantile,

or other business purposes, not including saloons, or 25 per cent or more of said foot frontage on said opposite side is not occupied for residence purposes. Property devoted to educational, religious or charitable uses, shall, for the purpose of this act, be held to be occupied for residence purposes and property other than residences devoted to other than the above specified uses shall for the like purposes be deemed to be occupied for business purposes."

"There is one objection to this report," said Attorney Wheeler, of the Anti-Saloon League. "It classifies public parks, such as Wade park, in Cleveland, and other parks of this kind, as business property, even though there is not a building upon them and not one cent's worth of business done there in a year. The report provides that property devoted to educational, religious and charitable uses shall be considered residence property. With much more force should public parks be considered residence property."

Drowned in the Beaver River.

Mayor Weaver this morning received a letter from B. Lazarus, the county detective of Rochester, Pa., asking him to send any information gain concerning the drowning of Louis Brown, a war veteran, who fell into the Beaver river on April 1. Following is a description of the drowned man: Five feet, five inches tall; weight, 130 pounds; age, 67; left hand crippled with thumb off; bullet hole in muscle of right arm; ship tattooed on calf of one leg and anchor on one hand, and other similar marks.

OFFICER KEEPING CLOSE TAB ON BOYS WHO PLAY HOOKEY

Truant Officer Beardmore is starting on his busiest season of the year. With the advent of spring it is hard to keep a full attendance in the schools, the boys being overcome with an almost uncontrollable desire to spend the days along the banks of a fishing pond or roaming through the woods for wild flowers and many other attractions more enjoyable than sweating over the multiplication table.

This spring a determined effort will be made to enforce the truancy laws, and if the archers succeed in escaping them it will be no fault of the officials. Four cases are now pending in the court of Squire McLane and numerous others will follow if there is not a decided change in the situation. The cases before Justice McLane are those of William and Walter Wright, Howard Pinkerton and his father, William Pinkerton, who is charged with failing to force his boy to attend school.

The Wright boys have given the officers more trouble than any other pair in the city. They are on the roll of an East End school and now have to get more than 100 absent marks against them. William has played "hookey" 41 times during the past three months and Walter 67 times. The boys were taken before the justice last evening but sentence was suspended owing to the intercession made for them by their grandmother.

The Pinkerton boy is a close second to the Wright brothers. The truant officer found that he had been absent for a long time and after investigating the case concluded that the father was partially to blame. As a result the latter was arrested by Constable Powell and taken before the squire. He and his son were released on their own recognizance to appear later. Meanwhile further investigation will be made.

NEW STORM SEWER IS A NECESSITY

Bradshaw Avenue Residents Entitled to the Relief Which They Ask.

A WAY TO SAVE MONEY

A meeting of the finance committee of council will likely be held before next Tuesday evening for the purpose of thoroughly investigating the proposition offered by the abutting property holders along Bradshaw avenue relative to the construction of a storm water sewer. Mr. Moon, a member of the committee, stated this morning that some action would be taken and that he heartily favored the acceptance of the proposal.

The sewer is a necessity. And it will be erected before long. If council does not order the construction of it within a short time there is every reason to believe that the state board of health will carry out its threat to compel it to make the improvement. By accepting the proposition of the property holders the city will save about \$2,000, and as it is a certainty that the sewer must be laid, it is hard to determine why no action has been taken. A prominent citizen said today:

"It is the duty of council to take up the matter and push it along. The members of that body should be compelled for their economical stand taken on every financial problem that has been presented during the past year, but they should not be too close. It might result in a big expenditure later on. If the city can save \$2,000 by accepting the proposition of the property holders along Bradshaw avenue the councilmen should certainly vote for the construction."

Mayor Weaver is heartily in favor of accepting the proposal and advised council to that effect at the last meeting. The finance committee realizes the situation and no doubt will report favorably on the question at the next regular meeting.

Verdict in the Union Land Company's Suit Against Mary Wilshaw.

The hearing in the case of the Union Land company versus George and Mary Wilshaw was given in Squire H. P. McCarron's court yesterday afternoon. Anxious to get the streets and other thoroughfares of the city repaired before the advent of summer, the board of public service is in a state of worry owing to the depleted funds appropriated for that purpose. To place the paving in as good condition as before the recent floods will require hundreds of dollars, and the board is trying to devise a plan by which the amount can be raised.

No estimate of the cost of the improving has been made for the fact that there is no plan available at the present time by which the money can be secured, but the board will during the next few days make an estimate and council will more than likely be applied to for help. It was the intention of the board to wait until the city receives the money from the county bridge fund, but it has been learned that this money can be used only for bridge purposes and as a result council will be looked to for a special appropriation, it to be made under the emergency clause.

Aside from scores of sidewalks and other places that have been damaged by the heavy rains, the streets leading from the hill districts suffered the worst. Calcutta road, Avondale street, Bradshaw avenue, the Lisbon road, Pleasant street and Jethro street are impaired to a great degree and much money will be necessary to repair them. For a part of the repair two local plumbing firms will have to bear the cost and the East Liverpool railway company will have to pay for the repair of the Lisbon road. This will curtail the cost to the city considerably and the board of service proposes to see that those responsible in any manner for any damage are compelled to pay for it.

An Error in a Deed.

Lisbon, April 8.—(Special).—A petition was filed in court here today by J. M. Dickinson, of Lisbon, as attorney for Sophia Crook against Fannie Johnson, Cletus Crook, et al., asking that the court authorize the correction of an erroneous description in a deed. On November 11, 1869, Samuel Crook, now deceased, sold to Charles Crook, also now deceased, 53.23 acres in section 39 of Fairfield township for \$500. Through a mistake this tract is described as being in section 39.

NEW CAR LINE WILL APPLY TO COUNCIL FOR FRANCHISE

Newell Bridge Projectors Expected to Have Their Ordinance Ready for Submission Soon.

THE PROBABLE ROUTE OF THE NEW ROAD

At an early meeting of the city council a franchise will be asked for to allow the building of an electric street railway line over certain streets of this city. The street car line will be for the purpose of conducting passengers from the Diamond to the west end of the city and over the new bridge which it is proposed crossing the river to the Newell tract. The franchise will be asked by Marcus Aarons.

Already an effort is being made to secure the signature of the property owners along the streets which the bridge company wishes to traverse from the Ohio approach to the Diamond, and it is understood that the promoters are not finding clear sailing over the streets they would like to have the line constructed over, but they are taking up other routes with a view to reaching the same end.

It is the understood intention of the bridge company to have the street railway line cross the bridge and traverse Fifth street to Washington, there to

join with the new line of C. A. Smith, who has already secured a franchise along Fifth street to Market and extending east to the state line. It is not probable that the original intention can be carried out, of having the lines connect on Fifth street, as there is considerable opposition, and it is not expected that the signature of a two-thirds of the majority of property owners can be secured.

Another route is proposed, however, which is meeting with signatures. This route takes in Fifth street as far east as Monroe, then south on Monroe to Fourth and east on the latter street to Washington. Those who are handling the papers along this route claim that they are meeting with little or no opposition.

It is hardly expected that the franchise will be asked for at the next meeting of the council, as the right for the use of the lots in the old cemetery will come up at that time, but the franchise proposition will not be delayed longer than the meeting following.

MASS MEETING THIS EVENING PROMISES TO BRING CROWDS

Interest in the mass meeting of independent Republicans of East Liverpool and Wellsville to be held this evening has been growing during the past few days, and has now reached a point where it is doubtful if the spacious hall of the Turner society will accommodate the big crowd.

Wellsville supporters of Prof. J. L. MacDonald, who are leading the independent movement, will come to this city by special cars on the East Liverpool railroad. The East Liverpool enthusiasts will join forces with them and the meeting will probably be called to order about 8 o'clock.

An outline of the business before the meeting has not been framed up, but will consist of the appointment of a number of committees to carry on the work, and it is likely a move will be inaugurated to have the name of Prof. MacDonald placed on the ticket for the general election. The East Liverpool party men will be guided to a great extent, however, by the wishes of the Wellsville leaders, and it is certain the meeting will not be adjourned until everything necessary has been done that will contribute to the success of the independent candidate for county auditor.

21ST YEAR, NO. 84.

EAST LIVERPOOL, O., FRIDAY, APRIL 8, 1901—TWELVE PAGES.

TWO CENTS

EAST END GUN CLUB GROUND RUINED BY VANDALS' WORK

Damage to the Amount of Several Hundred Dollars Done by Some Unknown Persons.

THE MISCHIEF ALLEGED TO BE DUE TO SPITE

Destruction to the amount of from \$300 to \$600 was wrought on the quarters of the Columbian Gun club in the East End some time after dark last night. The trap house, pull house and every other feature of the grounds are reported destroyed and this afternoon members of the club are making an effort to gain a clue to the perpetrators of the contemptible work.

The club yesterday afternoon held its regular weekly shoot and when the members left the grounds everything was in perfect condition. They knew nothing of what had been done until about noon when Dr. Jackman was notified by a resident of the East End. The informant stated that the grounds were ruined so far as a shooting park is concerned. The grounds were fitted

up at a cost of nearly \$600 and for shooting purposes were possible the best equipped in this section of the country.

While the members of the club do not know who was guilty of the dastardly act, they are prone to believe it was the work of one of the parties who have been objecting of late to the shooting. It will be recalled that council was asked a few weeks ago to pass an ordinance or resolution giving the club the right to shoot on the premises, as certain persons had threatened action in the court of the mayor, and council did as requested.

Solicitor Davidson says that the act is punishable by a penitentiary sentence, and the members of the club say they will run down the vandals at all hazards.

BRANNOCK BILL AS AMENDED

Victory for the Anti-Saloon People
Before the Judiciary Committee.

FOR PASSAGE NEXT WEEK

Columbus, April 8.—(Special).—The Brannock district local option bill was favorably reported to the senate yesterday by the judiciary committee of that body with a new amendment adopted by the committee after the Shallenberger amendment, adopted by the sub-committee, had been rejected. This is an anti-Saloon League victory. The bill will be up for passage next Tuesday afternoon.

The members of the majority committee signing the new amendment were Stewart, West, Ricketts, Connell, Heinlein, Chamberlain, Harrison and Overturf. Those not signing were Cassatt, Shallenberger, Chapman, Carter and Houck.

The amendment pertaining to the definition of "residence district" follows:

"And further, such residence district shall not contain the property or premises abutting on a street lying beyond two consecutive cross or intersecting streets, or extending for a distance of not less than 500 feet along such street on which said premises abut, whenever 75 per cent of the foot frontage of such abutting property is occupied for and devoted to manufacturing, mercantile, or other business purposes, not including saloons, and on the opposite side of said portion of said street on which said property abuts either 75 per cent of the foot frontage abutting thereon is occupied for and actually devoted to manufacturing, mercantile,

OFFICER KEEPING CLOSE TAB ON BOYS WHO PLAY HOOKEY

Truant Officer Beardmore is starting on his busiest season of the year. With the advent of spring it is hard to keep a full attendance in the schools, the boys being overcome with an almost uncontrollable desire to spend the days along the banks of a fishing pond or roaming through the woods for wild flowers and many other attractions more enjoyable than sweating over the multiplication table.

This spring a determined effort will be made to enforce the truancy laws, and if the urchins succeed in escaping them it will be no fault of the officials. Four cases are now pending in the court of Squire McLane and numerous others will follow if there is not a decided change in the situation. The cases before Justice McLane are those of William and Walter Wright, Howard Pinkerton and his father, William Pinkerton, who is charged with failing to force his boy to attend school.

The Wright boys have given the officers more trouble than any other pair in the city. They are on the roll of an East End school and now have together more than 100 absent marks against them. William has played "hookey" 41 times during the past three months and Walter 67 times. The boys were taken before the justice last evening but sentence was suspended owing to the intercession made for them by their grandmother.

The Pinkerton boy is a close second to the Wright brothers. The truant officer found that he had been absent for a long time and after investigating the case concluded that the father was partially to blame. As a result the latter was arrested by Constable Powell and taken before the squire. He and his son were released on their own recognizance to appear later. Meantime further investigation will be made.

ROUTINE BUSINESS ALONE BEFORE IT

Executive Board of the N. B. of O. P. is in Session Today.

A short session of the executive committee of the N. B. of O. P. was held at headquarters this morning. The out-of-town members reached here in time for the meeting and all the local officers were in attendance. Routine business was transacted and after an adjournment for dinner the work was resumed.

President Duffy stated this afternoon that there would be nothing in the proceedings to give out for publication. The meeting has no special significance, and is being held simply to wind up the affairs of the organization for the year.

It is thought that the session this afternoon will finish all the business in hand. The out-of-town officials will remain here until tomorrow, however.

NEEDLE IN THE FOOT

Young Woman of the East End Meets With a Very Serious Mishap.

Miss Lottie Treney, who lives on Pennsylvania avenue, East End, was the victim of a painful accident this morning. While walking across the floor at her home she stepped on a black needle, which penetrated her foot to the depth of an inch and in her attempt to extract it, the needle broke off. It is feared that blood poisoning may set in.

NEW STORM SEWER IS A NECESSITY

Bradshaw Avenue Residents Entitled to the Relief Which They Ask.

A WAY TO SAVE MONEY

A meeting of the finance committee of council will likely be held before next Tuesday evening for the purpose of thoroughly investigating the proposition offered by the abutting property holders along Bradshaw avenue relative to the construction of a storm water sewer. Mr. Moon, a member of the committee, stated this morning that some action would be taken and that he heartily favored the acceptance of the proposal.

The sewer is a necessity. And it will be erected before long. If council does not order the construction of it within a short time there is every reason to believe that the state board of health will carry out its threat to compel it to make the improvement. By accepting the proposition of the property holders the city will save about \$2,000, and as it is a certainty that the sewer must be laid, it is hard to determine why no action has been taken. A prominent citizen said today:

"It is the duty of council to take up the matter and push it along. The members of that body should be complimented for their economical stand taken on every financial problem that has been presented during the past year, but they should not be too close. It might result in a big expenditure later on. If the city can save \$2,000 by accepting the proposition of the property holders along Bradshaw avenue the councilmen should certainly vote for the construction."

Mayor Weaver is heartily in favor of accepting the proposal and advised council to that effect at the last meeting. The finance committee realizes the situation and no doubt will report favorably on the question at the next regular meeting.

IN THE FIRST CLASS

East Liverpool Postoffice Receipts Have Reached a Phenomenally Large Figure.

The receipts of the East Liverpool postoffice for the year ending March 31 have been \$43,531.02, a phenomenally large figure, putting the office in the first class, with \$3,500 more than the required \$40,000.

This showing ought to be an inducement to congress to hasten the government building.

MAYOR IS BUSY UPON REPORTS

Preparing a Statement of the City Finances and Other Matters.

RIGHT TO REVISE ITEMS

Belongs to the Executive, and the Task Confronting Him Is By No Means An Easy One—Views on Wine Room Bill Forthcoming.

In taking care of the clerical work incident to his position Mayor Weaver is again head over heels in business. At no time since he assumed the duties of chief executive has he been so rushed and it is a problem whether or not he will complete the work he has planned. Until next Tuesday evening he will be compelled to devote the most of his time in getting reports and communications ready for the city council.

He is today preparing a statement of the finances of the municipality and such other information relating thereto. A provision of the code compels him to submit the statement. It will be in the form of an annual budget, which will give the exact condition of the city's wealth. The budget will be made up from the reports of the several boards recently submitted to the mayor and auditor for their approval. These reports have been in the form of estimates and to make the proper calculation is by no means an easy job. The mayor has the right to revise and change any of the items in the annual estimates furnished to him by the directors and officers of the municipality, but he has not the right to increase the total amounts.

After completing the budget the mayor will devote some time in preparing a communication with the wine room ordinance as his theme. The mayor is yet up in arms over the riddling given his ordinance by the councilmen and he will take advantage of the opportunity on Tuesday evening of explaining his position. It is not unlikely that he will score the members and he will no doubt be strong in his denunciation of their work.

The councilmen feel that they have acted wisely, and will undoubtedly reply to the assalment.

SECRETARY POLLARD OFFERS RESIGNATION

Proposes to Leave the Local Y. M. C. A. on the First of Next Month.

H. H. Pollard, general secretary of the local Y. M. C. A., at a meeting of the directors last evening tendered his resignation, to take effect May 1. His assistant, Otto Largent, will have charge for the present, and may be elected permanent secretary.

Mr. Pollard's resignation comes as something of a surprise, as his work has been good and he is popular with the association membership. He states that the climate here does not agree with his health, and this and other reasons have induced him to resign.

THE CASE DROPPED

Mrs. Waters Gives a Peace Bond and Mrs. Oswald Won't Prosecute.

Mrs. Jennie Oswald yesterday afternoon decided to withdraw the charges preferred against Mrs. Jennie Waters in the court of Mayor Weaver, providing the defendant would give a peace bond. Mrs. Waters was charged with threatening to kill Mrs. Oswald with a butcher knife. The latter intended to have her severely punished for the threat, but when she thought of the condition in which the Waters children would be left, she concluded to let the case drop.

Mrs. Waters will give bond today and the case will die.

FOR THE PLAINTIFF FOR \$67 AND COSTS

Verdict in the Union Land Company's Suit Against Mary Wilshaw.

The hearing in the case of the Union Land company versus George and Mary Wilshaw was given in Squire H. P. McCarron's court yesterday afternoon. A verdict was rendered in favor of the plaintiff in the sum of \$67.75 and costs. Notice of appeal was made and it is very probable that the case will go to the common pleas court at Lisbon.

The case is one which involves the payment for dirt furnished to fill in along the foundation of a house built by the Wilshaws in the Croxall addition, located along California Hollow. The defense claimed that Mr. Croxall had been asked to supply the dirt for filling in the property, but it was proven to the satisfaction of the court that Mr. Croxall had been asked to secure them the dirt and he done so from the land company. It was proven to the satisfaction of the squire that the filling had been supplied and he rendered his decision accordingly.

Sale of Land Approved.

Lisbon, April 8.—(Special).—The sale of 46.5 acres in Madison township by David A. Pritchard, of Lisbon, as guardian of Myrtle Williams et al. of East Liverpool, has been approved. The premises were appraised at \$1,129.75 and were sold to Robert Croft for \$1,975.

FUNDS ARE LOW AND WORK NEEDED

Board of Public Service Puzzled to Make Necessary Street Repairs.

MUCH MONEY REQUIRED

Anxious to get the streets and other thoroughfares of the city repaired before the advent of summer, the board of public service is in a state of worry owing to the depleted funds appropriated for that purpose. POTTERY FOR SALE.

The Augusta pottery, at Mannington, W. Va., is advertised for sale under foreclosure. The conditions of this mortgage made it possible for the trustee to foreclose at any time if the conditions covered by the original contract were not fully complied with. One of the conditions was that the manufacture of pottery should commence as soon as the works were finished and was equipped for operation. The plant has been completed for some time and no work has been done. The course to be taken was decided upon by the persons who have put in money and the trustee is instructed to foreclose. This measure will be for the best interest of all concerned, as the sale of the property is believed will insure the early operation of the plant.

CHANGES SUGGESTED.

Porcelain and Fire Clay Workers' union No. 10,885 held a special meeting at its headquarters in the Polk building, Trenton, for the purpose of securing the opinions of the members in regard to the advisability of adopting and presenting a new wage list and the correction of abuses that have crept into the trade. The meeting was largely attended and suggestions were made by many of the leading members. The lists and changes suggested will be discussed at the next meeting of the union to be held Wednesday evening, April 20.

PLANTS BUSY.

William Roberts, who reads the meters at the pottery plants for the Ohio Valley Gas company, has returned from a brief business trip to Wheeling, Bellaire and other cities in that neighborhood. He states that nearly every plant in that section is now in operation and that the business outlook is better than at any time this year.

WILL BE REBUILT.

Fire nearly destroyed the plant of the Brian Pottery company, located about two miles east of Trenton. Loss about \$30,000. The burned portion of the plant will be rebuilt at once. The loss is practically covered by insurance. The plant is devoted to the manufacture of sanitary ware.

LAYING PIPES.

Under the direction of the water works department pipes are being laid from the main to the Colonial pottery to supply the water for the sprinkling system recently installed there. The system will be ready for use as soon as the work of pipe laying is completed.

James C. Hunter, kiln fireman at the K. T. & K. old end, who has been sick all winter with bronchitis, remains in a very serious condition.

Charles Kaufman, formerly of the Thompson and now foreman of the Carrollton plant, was called here to attend the funeral of his brother-in-law, Samuel Buzzard.

Harry Laughlin, formerly of this city and now employed at the Shenango plant, New Castle, is visiting his mother here. He says that the Shenango plant is very busy, some of the fiddlers working at night.

POTTERY FOR SALE.

The Augusta pottery, at Mannington, W. Va., is advertised for sale under foreclosure. The conditions of this mortgage made it possible for the trustee to foreclose at any time if the conditions covered by the original contract were not fully complied with. One of the conditions was that the manufacture of pottery should commence as soon as the works were finished and was equipped for operation. The plant has been completed for some time and no work has been done. The course to be taken was decided upon by the persons who have put in money and the trustee was instructed to foreclose. This measure will be for the best interest of all concerned, as the sale of the property is believed will insure the early operation of the plant.

CHANGES SUGGESTED.

Porcelain and Fire Clay Workers' union No. 10,885 held a special meeting at its headquarters in the Polk building, Trenton, for the purpose of securing the opinions of the members in regard to the advisability of adopting and presenting a new wage list and the correction of abuses that have crept into the trade. The meeting was largely attended and suggestions were made by many of the leading members. The lists and changes suggested will be discussed at the next meeting of the union to be held Wednesday evening, April 20.

PLANTS BUSY.

William Roberts, who reads the meters at the pottery plants for the Ohio Valley Gas company, has returned from a brief business trip to Wheeling, Bellaire and other cities in that neighborhood. He states that nearly every plant in that section is now in operation and that the business outlook is better than at any time this year.

WILL BE REBUILT.

Fire nearly destroyed the plant of the Brian Pottery company, located about two miles east of Trenton. Loss about \$30,000. The burned portion of the plant will be rebuilt at once. The loss is practically covered by insurance. The plant is devoted to the manufacture of sanitary ware.

LAYING PIPES.

Under the direction of the water works department pipes are being laid from the main to the Colonial pottery to supply the water for the sprinkling system recently installed there. The system will be ready for use as soon as the work of pipe laying is completed.

SERIOUSLY SICK.

Thomas Hancock, the well known decorator, whose illness has been mentioned in this column, is now in a very serious condition and it is feared that he cannot recover. He has been removed to the Taylor hospital, where he is receiving the best of care.

POTTERY NOTES.

Miss May Webber, stenographer at the K. T. & K. pottery, who has been spending a few days at Cincinnati, returned yesterday.

James C. Hunter, kiln fireman at the K. T. & K. old end, who has been sick all winter with bronchitis, remains in a very serious condition.

Charles Cauffman, formerly of the Thompson and now foreman of the Carrollton plant, was called here to attend the funeral of his brother-in-law, Samuel Buzzard.

Harry Laughlin, formerly of this city and now employed at the Shenango plant, New Castle, is visiting his mother here. He says that the Shenango plant is very busy, some of the jigmen working at night.

A disordered stomach may cause no end of trouble. When the stomach fails to perform its functions the bowels become deranged, the liver and kidneys congested, causing numerous diseases, the most fatal of which are painless and therefore the more to be dreaded. The important thing is to restore the stomach and liver to a healthy condition, and for this purpose no better preparation can be used than Chamberlain's Stomach and Liver Tablets. A Timely Suggestion.

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is certain to be needed before the winter is over, and results are much more prompt and satisfactory when it is kept at hand and given as soon as the cold is contracted and before it has become settled in the system. In almost every instance a severe cold may be ward off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children, for it contains no harmful substance. It is pleasant to take—both adults and children like it. Buy it and you will get the best. It always cures. Sold by Alvin H. Bulger.

EAST END

ANNUAL REPORT

BEST IN HISTORY

RECORD FOR THE YEAR OF SECOND PRESBYTERIAN CHURCH.

Shows Substantial Gains in Membership and Progress in All Departments.

A successful and a progressive church is the Second Presbyterian, of the East End. The annual report which will be sent to the Steubenville presbytery at its meeting in New Philadelphia on the 18th of this month will be the best report ever given, and the past year's work marked as the most successful in the history of the church.

There have been 59 new members added to the church roll during the past year, 51 of these on profession of faith and eight by letter, which will be the largest accession of any church in the presbytery during the same period. There are now 270 members in the church, with a Sabbath school enrollment of 355, including the home department.

Twenty-one adults have been baptized during the year. The church is entirely free from debt, and its temporal affairs are splendidly managed by a board of six trustees composed of the following named persons:

S. R. Dixon, Frank Allabaugh, John W. Grant, J. B. Martin, R. M. Newell and Zed T. Smith, while the spiritual affairs are wisely looked after by a board of elders, composed of Robert Baird (the dean of the session), T. W. McCain, N. J. Orr, George Wilson, Isaac Beardmore and Rev. N. M. Crowe, the pastor.

The Sabbath school, the Junior and Senior Christian Endeavor societies and the Ladies' Missionary societies are all under able and efficient leaders, and are all doing splendid work. The Ladies' Missionary society alone has contributed considerably over \$100 to the various mission boards of the church during the year.

At a recent congregational meeting the trustees of the church asked the congregation to increase the salary of the pastor, Rev. N. M. Crowe, two hundred dollars a year, which was done with a hearty good will by a unanimous vote. The pastor feels very highly complimented by this action of the congregation, as he has been with this people now for almost six years. The church has also contributed very liberally to all the boards of the church. The contributions the past year were larger than in any previous year of the church's history.

The church is united and harmonious and a spirit of good will and fellowship prevails throughout the membership and between pastor and people, and all are working together for the good of the Master's kingdom and for the spiritual welfare of the people, and for the best interests of the community at large. This church has a bright future before it.

PAINFUL AFFLICTED

Little Child of Mr. and Mrs. Bryan Has Whooping Cough And a Broken Collar Bone.

The little three-year-old daughter of Mr. and Mrs. Will Bryan, of Erie street, is most seriously and peculiarly afflicted and for the past few days has been in great pain. The child has the whooping cough and for the past three days suffered terribly when coughing. Dr. W. E. Mowen was called and in making an examination discovered that the child's left collar bone had been broken. Three days ago the child had a fall, but that it resulted in a broken collar bone was not discovered until yesterday.

Dr. Mowen had to make the bandages extra strong and tight and the child will suffer greatly for several days. The physician says that this is the first complication of the kind he ever experienced in his practice.

RUN DOWN, TIRED

NINE-TENTHS OF THE EAST LIVERPOOL PEOPLE ARE IN THIS CONDITION.

Our Local Druggist, Chas. T. Larikins, Says "Vinol is What Every Man, Woman and Child Needs at This Season of the Year."

Many people right in this vicinity are all run down, no strength, hardly able to drag about. Don't know what ails them.

In ninety-nine cases out of a hundred it is simply a run-down condition of the system—in other words, general debility.

Our Vinol is the one great tonic re-creator which they need. It will create strength, tone up the digestive organs, cure all stomach troubles, give a healthy appetite, make rich, red blood and strengthen every organ in the body to do its work. It will drive away every feeling of lassitude, heaviness and depression, and infuse new life and energy.

Vinol is not a patent medicine, contains no injurious drugs, but it is the most delicious and valuable preparation of cod liver oil known to medicine, without a drop of oil to retard its work.

Mr. Andrew Jackson, of Springfield, O., writes: "Every spring for years I have found myself in a worn-out, run-down condition, with no appetite, and before commencing the use of Vinol was practically a dead man on my feet. I tried this wonderful remedy, and am satisfied that it has done for me what doctors have failed to do in all these years. I am well and strong, and my entire system is full of vitality. As a tonic for a run-down, tired, debilitated system, Vinol stands at the head."

I wish every man, woman and child in East Liverpool who is in this condition would try Vinol and prove what it will do. Chas. T. Larikins, druggist.

Painfully Hurt.

Conductor Ollie Jackman, of the East Liverpool line, was painfully hurt this morning while working with a car that was off the track on Jethro street. His thumb was caught under the weight of the car and was very badly smashed. Dr. Mowen dressed the wound.

Pleasant Party.

A pleasant evening was enjoyed at the home of Mr. and Mrs. W. W. Martin, of St. George street, at a party given in honor of their sons, Alvin and Clode. The evening was spent with games and music and delightful refreshments were served.

EAST END AFFAIRS.

Mrs. R. H. Brown, of Arroyo, is visiting her son, Campbell Brown, of Railroad street.

Mrs. W. D. Irwin, of Pennsylvania avenue, is recovering from her recent serious illness.

George Smith, the East End mail carrier, who has been seriously ill at his home in Oakland, is much better today.

Mrs. John Dawson, of Bellaire, who has been visiting Frank Parr, of Pennsylvania avenue, returned home yesterday.

What You Need for Constipation.

When troubled with constipation, what you need is a remedy that is sure to produce the desired effect. A remedy that is mild and gentle in its action. A remedy that leaves the bowels in a natural and healthy condition. A remedy that is easy and pleasant to take. Chamberlain's Stomach and Liver Tablets meet all these requirements. Give them a trial and you will never wish to take another dose of pills. Use them as directed and they will cure chronic constipation. Price 25 cents. Every box is warranted. For sale by Alvin H. Bulger.

ANNUAL REPORT BEST IN HISTORY

RECORD FOR THE YEAR OF SECOND PRESBYTERIAN CHURCH.

Shows Substantial Gains in Membership And Progress in All Departments.

A successful and a progressive church is the Second Presbyterian, of the East End. The annual report which will be sent to the Steubenville presbytery at its meeting in New Philadelphia on the 18th of this month will be the best report ever given, and the past year's work marked as the most successful in the history of the church.

There have been 59 new members added to the church roll during the past year, 51 of these on profession of faith and eight by letter, which will be the largest accession of any church in the presbytery during the same period. There are now 270 members in the church, with a Sabbath school enrollment of 355, including the home department.

Twenty-one adults have been baptized during the year. The church is entirely free from debt, and its temporal affairs are splendidly managed by a board of six trustees composed of the following named persons:

S. R. Dixon, Frank Allabaugh, John W. Grant, J. B. Martin, R. M. Newell and Zed T. Smith, while the spiritual affairs are wisely looked after by a board of elders, composed of Robert Baird (the dean of the session), T. W. McCain, N. J. Orr, George Wilson, Isaac Beardmore and Rev. N. M. Crowe, the pastor.

The Sabbath school, the Junior and Senior Christian Endeavor societies and the Ladies' Missionary societies are all under able and efficient leaders, and are all doing splendid work. The Ladies' Missionary society alone has contributed considerably over \$100 to the various mission boards of the church during the year.

At a recent congregational meeting the trustees of the church asked the congregation to increase the salary of the pastor, Rev. N. M. Crowe, two hundred dollars a year, which was done with a hearty good will by a unanimous vote. The pastor feels very highly complimented by this action of the congregation, as he has been with this people now for almost six years.

The church has also contributed very liberally to all the boards of the church. The contributions the past year were larger than in any previous year of the church's history.

The church is united and harmonious and a spirit of good will and fellowship prevails throughout the membership and between pastor and people, and all are working together for the good of the Master's kingdom and for the spiritual welfare of the people, and for the best interests of the community at large. This church has a bright future before it.

The little three-year-old daughter of Mr. and Mrs. Will Bryan, of Erie street, is most seriously and peculiarly afflicted and for the past few days has been in great pain. The child has the whooping cough and for the past three days suffered terribly when coughing. Dr. W. E. Mowen was called and in making an examination discovered that the child's left collar bone had been broken. Three days ago the child had a fall, but that it resulted in a broken collar bone was not discovered until yesterday.

Dr. Mowen had to make the bandages extra strong and tight and the child will suffer greatly for several days. The physician says that this is the first complication of the kind he ever experienced in his practice.

RUN DOWN, TIRED

NINE-TENTHS OF THE EAST LIVERPOOL PEOPLE ARE IN THIS CONDITION.

Our Local Druggist, Chas. T. Larkins, Says "Vinol is What Every Man, Woman and Child Needs at This Season of the Year."

Many people right in this vicinity are all run down, no strength, hardly able to drag about. Don't know what ails them.

In ninety-nine cases out of a hundred it is simply a run-down condition of the system—in other words, general debility.

Our Vinol is the one great tonic reconstructer which they need. It will create strength, tone up the digestive organs, cure all stomach troubles, create a healthy appetite, make rich, red blood and strengthen every organ in the body to do its work. It will drive away every feeling of lassitude, heaviness and depression, and infuse new life and energy.

Vinol is not a patent medicine, contains no injurious drugs, but it is the most delicious and valuable preparation of cod liver oil known to medicine, without a drop of oil to retard its work.

Mr. Andrew Jackson, of Springfield, O., writes: "Every spring for years I have found myself in a worn-out, run-down condition, with no appetite, and before commencing the use of Vinol was practically a dead man on my feet. The CLOTHCRAFT RAINCOAT

will keep you as dry as toast in the stormiest weather.

It sheds water like a duck's back and when the storm is over you can't find a spot on the coat.

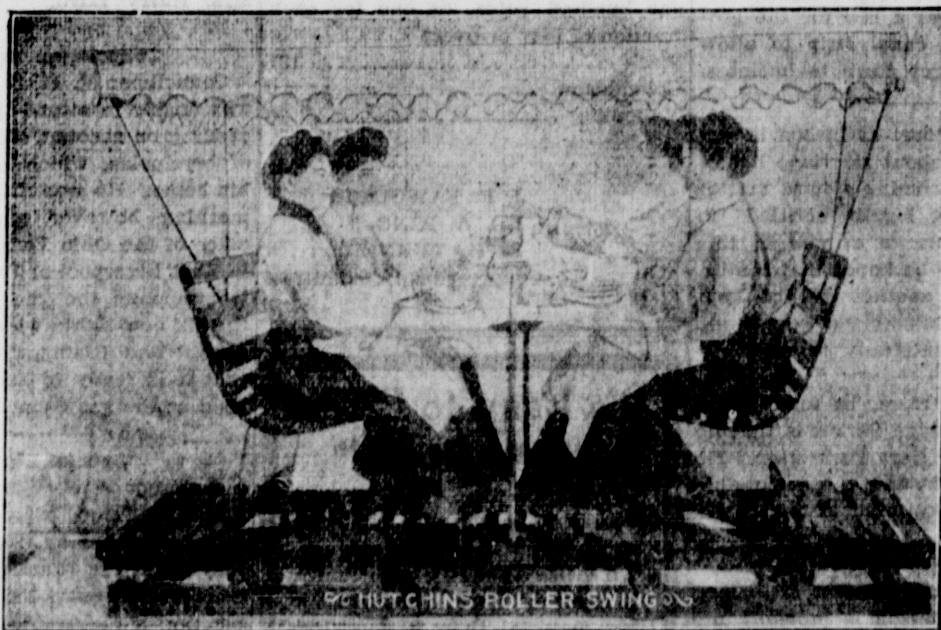

It's far ahead of the old style mackintosh and it hasn't the least "rubber" smell about it.

The belted back model shown in the illustration is as "swagger" as the high-priced custom tailor's product.

It's the same in everything except the price instead of charging \$40, we ask only \$15 to \$25.

The style book will interest you—it's free.

HORIZONTAL ROLLER SWING

Absolutely new, better than an electric fan in hot weather. Operates as easily as a rocking chair.

Big fun for the children. Delightful and refreshing for the old folks. Keeps the children at home and brings them good company. The old folks enjoy it, the young folks are delighted with it, the children never tire of it.

Newest, latest and best. Delightful movement; easy, pleasant and cool.

Place your order now and have it for the first hot day.

The last legal obstacle in the way
of the Panama canal company's prop-
erty to the United States has been
removed by the decision of the French
court, to which the matter was refer-
red, that Colombia has lost all sov-
ereignty over the canal congress has
now only to pass a law for the gov-
ernment of the canal strip to allow
Uncle Sam to get down to business.

The probate court at Lisbon is get-
ting particular about marriage licen-
ses, and it is becoming a hard matter
for persons not legally entitled to
them to get permits to wed in this
county. It is to be hoped that the ex-
ercise of such caution will be kept
up until the Columbiana county di-
vorce list is materially shortened.

The objection raised by some of his
party against Judge Parker is that he
could not carry New York state. No
Democrat could, and the impossible
should not be expected of any candi-
date.

The rumor that the czar is to lead
his armies in person is probably un-
founded. A general who is compelled
to travel in a bomb-proof safe could
not be of much use in the field.

Early visitors to the world's fair
are not likely to see the exhibits com-
plete, but they can see some wonder-
ful hotel bills, as complete as human
ingenuity can make them.

Exclusive of Alaska and islands, the
United States, it is estimated by the
census department, has now a popu-
lation of almost 80,000,000—79,900,389,
to be exact.

As a breeder of dissatisfaction, the
delegate system is a perfect success,

Where Iron Helps

and that is the only direction in which
it is ever likely to be successful.

President Roosevelt's Lome district
has instructed Chicago convention de-
legates for him. His nomination is go-
ing to be unanimous.

The man who thought the constitu-
tion nothing between friends is dead,
but several statesmen who live up to
his theory are not.

Senator Burton, of Kansas, is griev-
ing, not because he did wrong, but be-
cause he was found out. That is not
true repentance.

Senator Gorman thinks he is still in
the presidential race. As nobody else
thinks so, Gorman's opinion doesn't
count.

Senator Morgan is still opposing the
isthmian canal, and his opposition
counts just about as much as it ever
did.

Tom L. Johnson's political influence
is now about on a par with that of his
friend Bryan.

Several Democratic presidential
booms seem to have gone to join Gor-
man's.

It's Easy to Claim "Pure Drugs"

Every drug and chemical used
here is actually tested either by
us or by a reputable concern.
We insist on purity—absolutely.
It costs us more, of course, for
our material than it does less
particular druggists, but we are
satisfied with the increased patron-
age that rewards the super-
ior quality of our goods.

Remember that this high qual-
ity costs you not a penny more
than you are required to pay
elsewhere. Isn't purity—pre-
scription purity especially—
worth coming here to get?

STREET REPAIRS AND OTHER MATTERS

Discussed By the Chester Council at
the Meeting Held Last
Evening

Although it was expected that a very
interesting meeting of the Chester
council would be held last evening, the
interest failed to develop, owing to
the absence of Councilmen Cunn-
ingham and Dunn, two of the mem-
bers of the street committee. As the
important business to come up was in
connection with improvements to the
streets the absence of the members
of that committee delayed the action.

The meeting finally developed into
an informal discussion of what means
may be employed to repair the streets
which have been washed out, and in
this connection the councilmen re-
ceived some good advice from Engineer
J. C. Kelly, who had been requested to
attend the meeting.

The opening of Third street was dis-
cussed and it was finally decided to
place the matter in the hands of the
street committee and the engineer,
who will give it their attention before
the next meeting. The engineer also
advised that at the bridge over Middle
run retaining walls of concrete be
constructed for the protection of the
abutments.

Mayor Mercer stated that he thought
the members of the street committee
should look after their work in a more
expedient manner as the city was li-
able to damages at almost any time.

A number of bills were ordered
paid, after which the council adjourned.

DISTRICT CONVENTION

Of the Christian Endeavor Society to
Be Held at Fairview
in May.

The announcement has been made
that the Christian Endeavorers of Han-
cock county are invited to be present
at the district convention of the so-
cieties of the Wheeling district, to be
held at Fairview on Wednesday and
Thursday, May 25 and 26. The Wheel-
ing district embraces all the societies
in Brooke, Hancock, Ohio and Marshall
counties. The members of the society
at Fairview are already at work mak-
ing preparations for the entertain-
ment of the delegates in attendance at
the convention and an elaborate pro-
gram is being prepared.

The present officers of the society
are: President, Rev. W. A. Hartman;
vice president, Rev. W. A. Cook; re-
cording secretary, Miss Anna Coffey;
corresponding secretary and treasurer,
Guy A. Pryor; superintendent of
Juniors, Miss Blanch Harris; super-
intendent of Missions, Miss Etta Lo-
gan.

As all these officers reside in Wheel-
ing, they are meeting this week for
the preparation of the program of the
convention.

Missionary Society Meeting.

The Woman's Foreign Missionary
society of Washington presbytery is
in session this week at New Cumber-
land. Several of the members of the
society from Chester are in attend-
ance. This afternoon the ladies will
be served a dinner at the church. The
meetings will continue over this even-
ing, when Rev. Henry Foreman will
deliver an address on India. The chief
address during the session today was
"China's Appeal for the Gospel," by
Mrs. Harry Boyd.

Councilman Dunn Ill.

Councilman R. H. Dunn, of Chester,
was unable to attend the meeting last
evening on account of a severe attack
of erysipelas, which confined him to
his home. He was able to be out this
morning, however, and visited the
office of the Ohio Valley Gas company
in East Liverpool and secured a prom-
ise to make the gas connections for
the six new lights within the next few
days. The Risinger company states
that it is ready to hang the lights as
soon as the gas connections are made.

Special Election.

Governor A. B. White, of West Vir-
ginia, has issued a proclamation and a
writ calling for an election to be held
May 10 in the counties of Ohio, Han-
cock and Brooke for the purpose of
electing a representative to the state
senate to fill the vacancy caused by
the death of Senator Samuel Gerge, of
Wellsburg.

Dropped the Case.

Owing to the interest manifest in
the hearing of the case of Mrs. Byron
Riley against J. C. Lewis, "Squire W.
C. Johnston was compelled to take the
case to the town hall for the hearing.
Even then the room was not sufficient
to accommodate the crowd. The "squire
considered the evidence insufficient
and dismissed the case.

Street Inspection.

Engineer Kelly states that he will
gather the members of the street com-

mittee of the council together the first
part of the coming week for the pur-
pose of inspecting the streets. If it is
found necessary it is expected that a
special meeting of the council will
then be held to consider the propo-
sitions.

More Wells to Be Drilled.

The members of the Fairview Oil
& Gas company are so much pleased
with the gas showing of the well late-
ly drilled on their field that they now
contemplate the drilling of several ad-
ditional wells. A meeting of the mem-
bers of the company has been called
for this evening at Fairview, when the
future course of the company will be
decided. The late well that has been
drilled by this company is expected to
be put through the sand today and the
majority of the members are on the
field.

Photograph Social.

A photograph social was held last
evening at the home of Alex Marshall,
on Carolina avenue. The affair was
under the auspices of the Epworth
League of the Chester M. E. church.
An elegant supper was served and
as there was a large attendance a neat
sum was realized.

CHESTER NOTES.

The Fernside school has been closed
for the summer.

While grinding clay at the Globe
brick works Richard Mellott, the en-
gineer, was struck by a lump of clay
on the nose, breaking the nose in two
places.

A special term of the county court
will be held at New Cumberland on
Monday. The meeting is called for the
purpose of considering the rebuilding
of bridges that have been damaged
during the winter.

indigestion and constipation positively

Where Iron Helps

When the system is disordered and
vitality is lacking, the blood is found
to be deficient in iron. Iron is need-
ful but it is hard to get. The ordi-
nary forms of it injure the teeth and
derange digestion. In our

you get iron at its best. The form
used is perfectly soluble and abso-
lutely harmless. It is acceptable to
the stomach and passes at once into

It's Easy to Claim "Pure Drugs"

Every drug and chemical used
here is actually tested either by
us or by a reputable concern. We
insist on purity—absolutely.
It costs us more, of course, for
our material than it does less
particular druggists, but we are
satisfied with the increased patron-
age that rewards the superi-
or quality of our goods.

Remember that this high qual-
ity costs you not a penny more
than you are required to pay
elsewhere. Isn't purity—pre-
scription purity especially—
worth coming here to get?

SOUTH SIDE STREET REPAIRS AND OTHER MATTERS

Discussed By the Chester Council at
the Meeting Held Last Evening

Although it was expected that a very
interesting meeting of the Chester
council would be held last evening, the
interest failed to develop, owing to
the absence of Councilmen Cunn-
ingham and Dunn, two of the mem-
bers of the street committee. As the im-
portant business to come up was in
connection with improvements to the
streets the absence of the members
of that committee delayed the action.

The meeting finally developed into
an informal discussion of what means
may be employed to repair the streets
which have been washed out, and in
this connection the councilmen re-
ceived some good advice from Engineer
J. C. Kelly, who had been requested to
attend the meeting.

The opening of Third street was dis-
cussed and it was finally decided to
place the matter in the hands of the
street committee and the engineer,
who will give it their attention before
the next meeting. The engineer also
advised that at the bridge over Middle
run retaining walls of concrete be
constructed for the protection of the
abutments.

Mayor Mercer stated that he thought
the members of the street committee
should look after their work in a more
expedient manner as the city was li-
able to damages at almost any time.

A number of bills were ordered
paid, after which the council adjourned.

DISTRICT CONVENTION

Of the Christian Endeavor Society to
Be Held at Fairview
in May.

The announcement has been made
that the Christian Endeavorers of Han-
cock county are invited to be present
at the district convention of the soci-
eties of the Wheeling district, to be
held at Fairview on Wednesday and
Thursday, May 25 and 26. The Wheel-
ing district embraces all the societies
in Brooke, Hancock, Ohio and Marshall
counties. The members of the society
at Fairview are already at work mak-
ing preparations for the entertain-
ment of the delegates in attendance at
the convention and an elaborate pro-
gram is being prepared.

The present officers of the society
are: President, Rev. W. A. Hartman;
vice president, Rev. W. A. Cook; re-
cording secretary, Miss Anna Coffey;
corresponding secretary and treasur-
er, Guy A. Pryor; superintendent of
Juniors, Miss Blanch Harris; super-
intendent of Missions, Miss Etta Lo-
gan.

As all these officers reside in Wheel-
ing, they are meeting this week for
the preparation of the program of the
convention.

Missionary Society Meeting.

The Woman's Foreign Missionary
society of Washington presbytery is
in session this week at New Cumber-
land. Several of the members of the
society from Chester are in attend-
ance. This afternoon the ladies will
be served a dinner at the church. The
meetings will continue over this even-
ing, when Rev. Henry Foreman will
deliver an address on India. The chief
address during the session today was
"China's Appeal for the Gospel," by
Mrs. Harry Boyd.

Councilman Dunn Ill.
Councilman R. H. Dunn, of Chester,
was unable to attend the meeting last
evening on account of a severe attack
of erysipelas, which confined him to
his home. He was able to be out this
morning, however, and visited the
office of the Ohio Valley Gas company
in East Liverpool and secured a prom-
ise to make the gas connections for
the six new lights within the next few
days. The Rinsinger company states
that it is ready to hang the lights as
soon as the gas connections are made.

Special Election.
Governor A. B. White, of West Vir-
ginia, has issued a proclamation and a
writ calling for an election to be held
May 19 in the counties of Ohio, Han-
cock and Brooke for the purpose of
electing a representative to the state
senate to fill the vacancy caused by
the death of Senator Samuel Gerge, of
Wellsburg.

Dropped the Case.
Owing to the interest manifest in
the hearing of the case of Mrs. Byron
Riley against J. C. Lewis, Squire W.
C. Johnston was compelled to take the
case to the town hall for the hearing.
Even then the room was not sufficient
to accommodate the crowd. The squire
considered the evidence insufficient
and dismissed the case.

Street Inspection.
Engineer Kelly states that he will
gather the members of the street com-

then be held to consider the propo-
sitions.

More Wells to Be Drilled.

The members of the Fairview Oil
& Gas company are so much pleased
with the gas showing of the well lately
drilled on their field that they now
contemplate the drilling of several ad-
ditional wells. A meeting of the mem-
bers of the company has been called
for this evening at Fairview, when the
future course of the company will be
decided. The late well that has been
drilled by this company is expected to
be put through the sand today and the
majority of the members are on the
field.

Photograph Social.

A photograph social was held last
evening at the home of Alex. Marshall,
on Carolina avenue. The affair was un-
der the auspices of the Epworth
League of the Chester M. E. church.
An elegant supper was served and as
there was a large attendance a neat
sum was realized.

MAIN STREET CLOSED DURING IMPROVEMENTS

Cars Will Stop Passing Through Street While New Sewer Work is Progressing There.

While sewer improvements are being made in Ninth street, Main street will be closed at Ninth street for several days. It would be dangerous to allow cars to pass over that point while this work is in progress. The whole matter has been laid before the board of service and the management of the street railway company will be notified accordingly.

Contractors commenced yesterday to construct a catch basin on Eighteenth street, a place where so much trouble occurred during the recent heavy rains. When this work is completed changes in the sewer system in Ninth street will begin. Deep excavations will be necessary at Ninth and Main street to connect all tributary sewers to the catch basin at that point. All these sewer improvements will cost the city \$290, which will be paid upon the completion of the work, which is expected to be by May 1.

HUNDREDS ATTACH NAMES TO PETITION

Signers Ask the Name of MacDonald Be Placed on Independent Ticket at Fall Election.

Petitions which have been circulated in Wellsville and East Liverpool during the past two days, praying that the name of J. L. MacDonald be placed on the ballots at the fall election for county auditor, have been signed by hundreds of voters.

In many instances voters have sought these petitions to affix their signatures instead of having the people in charge of the petitions seek them.

It is possible that additional petition blanks will be secured and that they will be circulated throughout the county. In this way thousands of names are expected to be obtained, although only 300 signatures are required by law.

WOMEN ON BOARD

Trustees of United Presbyterian Church Composed of Three Men and Three Women.

At a meeting of the congregation of the Main street United Presbyterian church, which will be held next Wednesday evening, the annual election of trustees will occur. Two women are on the board, although there were three after the last annual meeting.

One of these ladies resigned her charge soon after she was elected, and one of the trustees that will be elected next Wednesday evening will be to fill the unexpired term of this member. Whether another lady of the church will be elected as a trustee cannot be told.

The trustees now plan to improve the church property this year by repainting the exterior of the building. Last summer the interior of the church was renovated at a cost of about \$2,000 and the improvement this summer will cost but a few hundred. When this work is completed and paid for the church will then be free from all debts, which is a most excellent condition for a church to be in.

CLAIMS CITY TRESPASSED

Henry McIlvain Brings Up Question in His Petition Against City About Property Officials Claim Has Been Used As Public Road Many Years.

The suit filed in common pleas court at Lisbon by Herman C. McIlvain against Henry Herbert, Benson R. Smith and the city of Wellsville, proves to be one of the most interesting actions filed against the city in years. In the petition his attorneys, Smith and Lones, have filed in court for him, he says he is the owner, in fee simple of a tract of land situated in Wellsville township, Columbiana county, and described as follows:

Commencing at a point in the center of the street or road in said city known

as Steubenville street or road; thence north 88 degrees west 535 feet adjoining lands of one Bunting; thence north 23 1/2 degrees east 410 feet; thence south 52 1/2 degrees east 85 feet; thence south 83 degrees 35 feet; thence north 84 degrees east 146 feet; thence north 73 1/2 degrees east 432.50 feet to a point in the center of said road or street; thence south 31 1/2 degrees west 553 1/2 feet to the place of beginning, containing 5.1 acres more or less.

The defendants, against the protests and objections of the plaintiff, and without any right to do so, travel on foot and with horses and wagons, over part of said land without any right to do so and against the objection of the plaintiff, for a roadway; that defendants and each of them make claim to the right to use the same for such roadway; that the claim they make is wholly unfounded and their action is a trespass upon the said property of the plaintiff; that their claim is wholly unfounded; that they are constantly using the same in the manner above stated; that their claim is a cloud upon the plaintiff's title; that the plaintiff is in actual possession and occupancy of said real estate; that the said action of defendants in traveling over said lands is a great and irreparable damage to the plaintiff, for which he has no adequate remedy at law.

Here the plaintiff prays for an injunction restraining the defendants and each of them from traveling over said land or any part thereof and from trespassing thereon in any manner; that the plaintiff's title to said premises be quieted and the defendants and each of them be forever barred from having or claiming any right to use said premises for the purposes aforesaid and for such relief as seems

School Board Will Meet.

The Wellsville board of education will meet next Monday evening, at which time it is expected to let the

contract for the fire escape at the central building. New bids have been received by the board, and will be opened at this session. Much other routine matter is also to be discussed at this session.

MAIN STREET CLOSED DURING IMPROVEMENTS

Cars Will Stop Passing Through Street While New Sewer Work is Progressing There.

While sewer improvements are being made in Ninth street, Main street will be closed at Ninth street for several days. It would be dangerous to allow cars to pass over that point while this work is in progress. The whole matter has been laid before the board of service and the management of the street railway company will be notified accordingly.

Contractors commenced yesterday to construct a catch basin on Eighteenth street, a place where so much trouble occurred during the recent heavy rains. When this work is completed changes in the sewer system in Ninth street will begin. Deep excavations will be necessary at Ninth and Main street to connect all tributary sewers to the catch basin at that point. All these sewer improvements will cost the city \$290, which will be paid upon the completion of the work, which is expected to be by May 1.

HUNDREDS ATTACH NAMES TO PETITION

Signers Ask the Name of MacDonald Be Placed on Independent Ticket at Fall Election.

Petitions which have been circulated in Wellsville and East Liverpool during the past two days, praying that the name of J. L. MacDonald be placed on the ballots at the fall election for county auditor, have been signed by hundreds of voters.

In many instances voters have sought these petitions to affix their signatures instead of having the people in charge of the petitions seek them.

It is possible that additional petition blanks will be secured and that they will be circulated throughout the county. In this way thousands of names are expected to be obtained, although only 300 signatures are required by law.

WOMEN ON BOARD

Trustees of United Presbyterian Church Composed of Three Men and Three Women.

At a meeting of the congregation of the Main street United Presbyterian church, which will be held next Wednesday evening, the annual election of trustees will occur. Two women are on the board, although there were three after the last annual meeting.

One of these ladies resigned her charge soon after she was elected, and one of the trustees that will be elected next Wednesday evening will be to fill the unexpired term of this member. Whether another lady of the church will be elected as a trustee cannot be told.

The trustees now plan to improve the church property this year by repainting the exterior of the building. Last summer the interior of the church was renovated at a cost of about \$2,000 and the improvement this summer will cost but a few hundred. When this work is completed and paid for the church will then be free from all debts, which is a most excellent condition for a church to be in.

Hyomei Cures; Else You Get Your Money Back.

Only Catarrh Remedy So Sure of Its Own Merits.

Inhaled, It Kills the Germs Right in the Air Passages.

One of Our Best Known Druggists Guarantees to Refund Money if Hyomei Fails.

Will Refund Offers to Return Money if Hyomei Treatment Fails to Cure Catarrh Without Stomach Dosing.

If for a few minutes four times a day you breathe Hyomei, all catarrhal germs will be destroyed and the irritated mucous membrane restored to health.

With every Hyomei outfit there is a neat inhaler which can be carried in the purse or pocket. Hyomei breathed through this contains the same healing balsams that are found in the air upon the mountains, where catarrh is unknown.

It destroys all catarrhal germs in the air passages of the head, throat and nose, and makes a positive and permanent cure of catarrh.

The complete outfit costs but \$1, while extra bottles of Hyomei can be obtained for 50c, making it one of the most economical of treatments for catarrh.

Will Reed believes so thoroughly in the merit of Hyomei, that he guarantees to return the money if it fails. This is certainly the strongest evidence he can give of his faith in the Hyomei treatment. It enables any one to use Hyomei without risk of spending money for nothing.

Ask Mr. Reed to show you a Hyomei outfit and explain to you what a simple and easy way it is to relieve and cure your catarrhal troubles.

"LET US HELP YOU TO HEALTH"

Will Reed Wants Every Catarrh Sufferer to Use Hyomei and Be Cured.

Statistics show that at least 97 out of every 100 persons in this state suffer from catarrh in some form.

While the disease is one of the most common, it is also one of the most dangerous and offensive, leading to consumption and other diseases of the respiratory organs.

Prior to the discovery of Hyomei and its introduction in this section by Will Reed, every method of treatment had been found worthless.

The discovery of Hyomei and its growing popularity has already reduced the percentage of those suffering from catarrh. This wonderful remedy is the simplest and most pleasant of treatments. Put 20 drops of Hyomei in the pocket inhaler that comes with every outfit, and breathe it for a few minutes four times a day. Relief will be seen after the first treatment and a complete cure will soon follow. Breathe the Hyomei in this way, and the catarrhal germs even in the most remote air cells are destroyed. The irritated mucous membrane is soothed and healed, and perfect health restored.

Will Reed says to all catarrh sufferers: "Let me help you to health, I am confident Hyomei will cure, so confident, in fact, that I guarantee to refund your money if it fails. A complete outfit costs but \$1, and if it does not help you, your money will be promptly returned."

A BASEBALL LEAGUE FOR EAST LIVERPOOL

Movement That May Result in a Game Each Day in the Season.

If the movement which is now on foot is carried out it is very probable that a game of base ball will be seen at the West End park almost every week day when the weather does not interfere during the season. The movement which will bring this about is the organization of a local league of probably eight teams, the games of which will be played during the early days of the week and allow the last three days for the first team.

This movement has been put on foot by Manager M. J. Lynch, who has charge of the first team of the city, and he states that the organization of the new local league will be a go. The teams that are now proposed for the league are the Athletics, Nonpareils, Carroll club, Marines, Y. M. C. A., Crockerly City, East End Grays and the Park place team.

It is the intention at the end of the season to have a series of games between the first team and the team that has the highest average in the league. The series will probably be of five games, and it is expected that a great deal of interest will be manifested, as the winning team of the league will probably be strengthened by the best players on the other teams for the series with the first team.

A meeting of the managers of the teams will be called during next week, at which time the formation of the league will be thoroughly discussed.

ATHLETIC BASE BALL TEAM

Manager Ashbaugh Busy Getting His Men in Shape for Work on the Diamond.

Manager Will Ashbaugh, of the East Liverpool Athletic club base ball team, is now busily engaged making preparations for the opening of the season with his team. He has already made arrangements for the opening game at Salem on May 7. The new grounds at Salem will be opened on that date and Manager Ashbaugh has received word that every preparation has been made for a grand opening.

A band has been secured to head the parade of the members of the Athletics and Salem teams which will traverse the principle streets to the park. The Athletics will be out for practice just as soon as the weather will permit and it is expected that they will play three or four games prior to the formal opening of the season at Salem.

The lineup of the team for the season will be L. Emmerling, catcher; G. Emmerling, Allison and E. Carey, pitchers; McAvoy, short; Tyson, first; J. Heckathorn, second; Tom Davis, third; Trainor, left field; Myler, center field; one of the idle pitchers, right field.

On May 13 and 14 the Athletics will play the fast Warren team at that place.

LEAGUE OF BALL CLUBS

Formed By Representatives of Teams in Eastern Ohio and Pennsylvania.

The meeting of independent baseball managers at Akron Tuesday afternoon was the biggest thing of the kind ever held in this state, says a Youngstown paper, and 21 clubs, members of the Protective Baseball Clubs and the Eastern Ohio and Western Pennsylvania Protective association, were represented, several by proxy. As a result of the meeting, harmony was restored among managers of this section and the associations were merged as one, with M. L. Gaunter, of Youngstown, president and secretary.

The following cities had representatives at the meeting: Youngstown, Warren, Niles, Marietta, Kent, Zanesville, Akron, Canton, Ashland, Ky., Futures, of Toledo, Portsmouth, Piqua, Coshocton, Newark, Charleston, Urbana, Mansfield, Waynesburg, Johnstown, Homestead, Fremont, Mt. Vernon, Rochester and Sharon.

Hymel Cures Else You Get Your Money Back.

Only Catarrh Remedy So Sure of Its Own Merits.

Inhaled, It Kills the Germs Right in the Air Passages.

One of Our Best Known Druggists Guarantees to Refund Money if Hymel Fails.

Will Reel Offers to Return Money if Hymel Treatment Fails to Cure Catarrh Without Stomach Dosing. If for a few minutes four times a day you breathe Hymel, all catarrhal germs will be destroyed and the irritated mucous membrane restored to health.

With every Hymel outfit there is a neat inhaler which can be carried in the purse or pocket. Hymel breathed through this contains the same healing balsams that are found in the air upon the mountains, where catarrh is unknown.

It destroys all catarrhal germs in the air passages of the head, throat and nose, and makes a positive and permanent cure of catarrh.

The complete outfit costs but \$1, while extra bottles of Hymel can be obtained for 50c, making it one of the most economical of treatments for catarrh.

Will Reel believes so thoroughly in the merit of Hymel, that he guarantees to return the money if it fails. This is certainly the strongest evidence he can give of his faith in the Hymel treatment. It enables any one to use Hymel without risk of spending money for nothing.

Ask Mr. Reel to show you a Hymel outfit and explain to you what a simple and easy way it is to relieve and cure your catarrhal troubles.

"LET US HELP YOU TO HEALTH"

Will Reel Wants Every Catarrh Sufferer to Use Hymel and Be Cured.

Statistics show that at least 97 out of every 100 persons in this state suffer from catarrh in some form.

While the disease is one of the most common, it is also one of the most dangerous and offensive, leading to consumption and other diseases of the respiratory organs.

Prior to the discovery of Hymel and its introduction in this section by Will Reel, every method of treatment had been found worthless.

The discovery of Hymel and its growing popularity has already reduced the percentage of those suffering from catarrh. This wonderful remedy is the simplest and most pleasant of treatments. Put 20 drops of Hymel in the pocket inhaler that comes with every outfit, and breathe it for a few minutes four times a day. Relief will be seen after the first treatment and a complete cure will soon follow. Breathe the Hymel in this way, and the catarrhal germs even in the most remote air cells are destroyed. The irritated mucous membrane is soothed and healed, and perfect health restored.

Will Reel says to all catarrh sufferers: "Let me help you to health. I am confident Hymel will cure, so confident, in fact, that I guarantee to refund your money if it fails. A complete outfit costs but \$1, and if it does not help you, your money will be promptly returned."

REALM OF SPORTS

A BASEBALL LEAGUE FOR EAST LIVERPOOL

Movement That May Result in a Game Each Day in the Season.

If the movement which is now on foot is carried out it is very probable that a game of base ball will be seen at the West End park almost every week day when the weather does not interfere during the season. The movement which will bring this about is the organization of a local league of probably eight teams, the games of which will be played during the early days of the week and allow the last three days for the first team.

This movement has been put on foot by Manager M. J. Lynch, who has charge of the first team of the city, and he states that the organization of the new local league will be a go. The teams that are now proposed for the league are the Athletics, Nonpareils, Carroll club, Marines, Y. M. C. A., Crocker City, East End Grays and the Park place team.

It is the intention at the end of the season to have a series of games between the first team and the team that has the highest average in the league. The series will probably be of five games, and it is expected that a great deal of interest will be manifest, as the winning team of the league will probably be strengthened by the best players on the other teams for the series with the first team.

A meeting of the managers of the teams will be called during next week, at which time the formation of the league will be thoroughly discussed.

ATHLETIC BASE BALL TEAM

Manager Ashbaugh Busy Getting His Men in Shape for Work on the Diamond.

Manager Will Ashbaugh, of the East Liverpool Athletic club base ball team, is now busily engaged making preparations for the opening of the season with his team. He has already made arrangements for the opening game at Salem on May 7. The new grounds at Salem will be opened on that date and Manager Ashbaugh has received word that every preparation has been made for a grand opening.

A band has been secured to head the parade of the members of the Athletics and Salem teams which will traverse the principle streets to the park. The Athletics will be out for practice just as soon as the weather will permit and it is expected that they will play three or four games prior to the formal opening of the season at Salem.

The lineup of the team for the season will be L. Emmerling, catcher; G. Emmerling, Allison and E. Carey, pitchers; McAvoy, short; Tyson, first; J. Heckathorn, second; Tom Davis, third; Trainor, left field; Myler, center field; one of the idle pitchers, right field.

On May 13 and 14 the Athletics will play the fast Warren team at that place.

LEAGUE OF BALL CLUBS

Formed By Representatives of Teams in Eastern Ohio and Pennsylvania.

The meeting of independent baseball managers at Akron Tuesday afternoon was the biggest thing of the kind ever held in this state, says a Youngstown paper, and 21 clubs, members of the Protective Baseball Clubs and the Eastern Ohio and Western Pennsylvania Protective association, were represented, several by proxy. As a result of the meeting, harmony was restored among managers of this section and the associations were merged as one, with M. L. Gaundier, of Youngstown, president and secretary.

The following cities had representatives at the meeting: Youngstown, Warren, Niles, Marietta, Kent, Zanesville, Akron, Canton, Ashland, Ky., Futures, of Toledo, Portsmouth, Piqua, Coshocton, Newark, Charleston, Urbana, Mansfield, Waynesburg, Johnstown, Homestead, Fremont, Mt. Vernon, Rochester and Sharon.

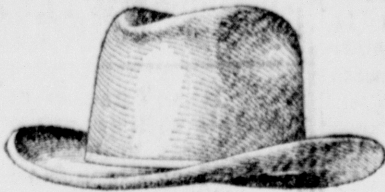

LYCEUM FIVE TONIGHT

Fast Team from Allegheny County League Will Play the Ohio Champions.

The Allegheny Lyceum five will be the opponents of the Ohio champions at the pavilion tonight and a fast game is expected. Instead of trying to load up with fast players from other teams the visitors will play their regular men.

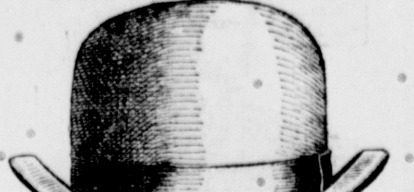

Stehle, who plays center for the Lyceum five, was here early in the season with Honus Wagner's bunch and put up a fine game. A more exciting contest than that furnished by the Olympics last Tuesday night can be expected. The lineups will be about as follows:

We Don't Know if You Bought Your Spring Suit, Spring Top Coat and Hat

last week for Easter or not—it seems that everybody bought them here as we were busy all last week fitting the people up in new spring attire, but we take it for granted that there are still some left who want to be made happy, and we know of no place in this man's town where you are as likely to be pleased in a Suit, Overcoat, Hat, or in any Furnishing Goods as at this store. We wish to remind you that

.. .. THIS IS AN EXCLUSIVE STORE

What we mean by "exclusive" is that most of our goods that we sell you are sold and controlled exclusively in this city by this store. We are the largest distributors of Men's, Boys' and Children's Clothing, Hats and Furnishing Goods in Eastern Ohio. We buy most of our goods in car lots direct from the mills and thereby save you the middlemen's profit and give you the best goods on the market at any certain price.

That is why we have grown within five years from the smallest clothing house in town to the largest in this part of the state, and are still growing.

We don't expect to sell to every man, woman and child in this city in a few years, but they are coming. Every day we are getting new customers and every new customer brings us another. Have you been here to see us? If you haven't don't you think it is about time for you to break away and get out of the old rut and better your Clothing and Furnishing purchases?

.. .. WE WILL SAVE YOU MONEY

and we will give you more style, fit, workmanship and quality in five minutes than any store in the city will give you in a year. We are an exclusive store, we mean our goods are exclusive, but we don't exclude anybody. We cater to all classes of trade, from the man who makes \$30.00 a month to the man who makes \$30.00 a minute. We want you all to come to our store, you will all be made welcome and we want you to feel that this store is your store. If you are not treated right report it at once and it shall not occur again. Now, what we want to advise you is this: We believe from the weather indications that this Sunday coming is going to be a nice day, and we would like to dress you up for Sunday. Bring your boys along (if you have any) and let us tog them up. We have the finest and best made Boys' Suits on earth, they look nice and stylish and at the same time have the long wearing qualities. We also wish to remind the boys that with each Suit they buy they receive free a fine Rough Rider Gun including 100 Caps and a Rubber Ball. We also ask you to remember that if we should forget to give you Coupons on the Free Excursion Trip to the St. Louis Exposition we want you to ask for them. You are entitled to One Coupon on each 25c that you spend with us, or 4 on each dollar, or 20 on each five dollars, or 40 on each ten dollar purchase, and so on.

YOUR PROTECTION IS OUR GAIN

Do you believe that we can afford to sell you something you don't want or that will not give you satisfaction? Our business depends on pleased customers. In fact any business does. Therefore we would take an enormous risk did we not fulfill every promise made in the columns of this newspaper.

With this point in mind—let us ask what risk you take in buying Rexall Mucu-Tone when we say we will give back your money if the remedy doesn't give satisfaction.

If we didn't believe that 98 per cent. of all who have taken Mucu-Tone have been benefited, we would not publish this advertisement.

There are any number of people right here at home who will gladly testify to Mucu-Tone's wonderful virtues, and if you call we'll gladly refer you to them. Read what Mr. Matt. Dillon writes:

"My little girl had catarrh so badly that the disease had begun to eat into the cartilage of the nose. Snuffs and instruments failed to do more than give temporary relief. I saw the advertisements of Mucu-Tone, but I could not believe that anything taken in the stomach could cure the sore membranes of the nose. However, I took advantage of your free trial offer and my girl began taking your remedy according to directions. I want to say right here that Mucu-Tone is certainly the greatest medical discovery of the times, and to thank you for the liberal offer that first induced me to give it a trial. Mucu-Tone has cured my daughter's catarrh completely. The discharge has stopped altogether and her breath is as sweet as can be. Again thanking you, MATT. DILLON, 24 N. Swans St., Albany, N. Y."

If you suffer from any of the following symptoms, we know that Mucu-Tone will immediately cure you. If it doesn't it's our loss, not yours.

Run down—can't work—feel constantly tired—have no appetite—or if you suffer from sore lungs, weakness, nervousness, pains in the stomach or back, then it is that you need Rexall Mucu-Tone.

Catarrh is not confined to the nose and throat. It may start there, but it leads to more serious trouble, particularly to the wasting away of tissues, which means a loss in weight. One bottle of Mucu-Tone will start you on the right road. It will put flesh on your bones and bring new vitality to your system.

OIL OPERATIONS NOT TO CEASE

Judge Laubie's Important Rulings in the Salem Iron Company Case.

EFFECT OF AN INJUNCTION

Would Produce More Lasting Injury Than the Aggrieved Parties Can Suffer By Its Refusal—It Would Paralyze a Great Business.

Lisbon, April 8.—(Special.)—In reaffirming the lower court in its refusal of permanent injunction in the suit of the Salem Iron company versus H. H. Hyland et al, oil drillers operating near Leetonia, Judge Peter A. Laubie, of the circuit court, made the following rulings:

"The evidence shows that the defendants were discharging, into the stream in question daily a large quantity of salt water, and claimed the right to continue to do so; that before and when they commenced to do this the plaintiff was a riparian proprietor lower down on the stream, and had been and was rightfully using water from the stream in its business and otherwise, and that, so far as the plaintiff is concerned, such discharge polluted the water of said stream to the substantial injury of the plaintiff's riparian rights."

"But the question remains, is the plaintiff entitled to the injunction prayed for, or must it seek its remedy in damages in a court of law? Courts of equity do not grant injunctions where it would produce far greater injury to the defendants than the injury to the plaintiff if refused, and more especially if the injunction would injudiciously affect commerce and strangle a business of the community."

Here Judge Laubie quoted some authorities on the general doctrine advanced and, continuing, said:

"The evidence shows that the defendants are engaged in one of large public concern and in an extensive oil territory; and that there is no way of sinking oil wells in this and other parts of the state without pumping out and discharging large

quantities of salt water; and that the defendants have no method of disposing of it save in the way complained of; that is, discharging it into such stream; and that, if they were restrained from so discharging such water into such stream it would compel them to abandon such business and in effect would compel all other persons to abandon the business in this and other parts of the state.

"The effect of granting such an injunction would be to strangle a large business which the community is interested in having carried on, and an injunction would produce far greater and more lasting injury to the defendant than the plaintiff can suffer by its refusal. The plaintiff must seek its remedy at law, and the petition is dismissed at its cost."

SIX NEW AMENDMENTS TO BRANNOCK BILL

RUNS THE GAUNTLET IN SENATE JUDICIARY BODY.

Residence District Definition the Point of Contention—Trouble Over Election Bill.

Columbus, April 8.—The Brannock bill has begun to run the amendment gauntlet before the senate judiciary committee. Six minor "corrective" amendments, five by Mr. Heinlein and one by Mr. West, were adopted and then a long discussion without final action was had on the following amendment by Senator Shallenberger:

"The phrase 'residence district,' as used in this act, shall be construed to mean any clearly described, contiguous, compact section of territory in a municipal corporation bounded by street, corporation or other well recognized lines or boundaries, and containing not fewer than — electors qualified to vote at state elections, nor more than — such qualified electors, which does not contain any territory separately or part of any other territory having a frontage of 300 feet or more, which is substantially business property; provided further that said district shall not include the side of any block less than 500 feet of which is substantially business property."

"In ascertaining the character of property, premises occupied by any charitable or benevolent institutions, by schools, public or private; by churches or hospitals, shall be counted as residence property. Premises used for other public purposes shall not be counted as either business or residence property. Vacant lands shall be counted as business or residence property, as the case may be, according to the general character of land in its immediate neighborhood in the same block or side of block and portion of street exactly thereto."

"The term 'block' shall be construed to mean the territory bounded by four well recognized streets, and not alleys."

This amendment was offered by Attorney Wayne B. Wheeler, of the Anti-Saloon league, on the ground that "no man can make it carry any sensible conclusion."

The advocates of the Harvey election bill were surprised and indignant late Tuesday over the unexpected action of the senate elections committee in favorably reporting the Hays election bill. The advocates of the latter are willing to have it amended to become effective on enactment, so as to satisfy the Cleveland Republicans who want the so-called "Johnson" city election board wiped out before delegates to the state and national conventions are chosen.

The Spanish Wine Tester.

Speaking of the preparation of Spanish wines, an expert said:

"When the grapes are crushed and the juice has been extracted, it is placed in big 100 gallon butts, and left to stand. For six years it is not even touched. Then, a wine expert goes through the butts, testing them by smell. His nose is the only means used to determine the value and fineness of the wine."

"Now, it is a peculiar fact and one that has never been explained that from the same vintage, secured under the same circumstances, many different grades of wine will be secured. Some of it will be pale, some medium, some dark. Only about one-third of it will be of the best quality. It is the duty of the wine tester, by means of his nose alone, to determine what butts contain the pale wine, etc., and what butts contain the best. He is able to separate the various qualities. Then the wine is bottled, labeled and shipped to foreign consumers."

Delhi and Its History.

Shah Jehan in 1631 built the present city of Delhi, close to the old Delhi, and made it the royal residence. The Mohammedans still call it Shahjehana-bad, the "city of the king of the world." Nadir Shah, the Persian usurper, captured it in 1739, massacred thousands of the inhabitants and bore away plunder to the value of nearly \$100,000,000, including the famous peacock throne and the great Kohinoor diamond, now in the possession of the British crown.

The British first came into control in 1803, when the Mahrattas were defeated near Delhi by Lord Lake. When the sepoy mutiny broke out in 1857 Shah Mohammed Bahadour, then ninety years old, took command of the city and until the English again triumphed enjoyed the imperial state to which he had long been a stranger.

At the time I began taking your medicine I was very nervous and did not want to see any one—only my own folks. 'The doctors all said that there was not anything else they could do for me, and also said they did not think that I would ever be any better, and if I was better I would never be able to walk again. 'A friend of mine was taking Paine's Celery Compound at the time and I thought I would try it. I took several bottles before I saw much improvement. But soon my nervousness left me. I again enjoyed seeing all who called at the house. 'I kept right on gaining until now I call myself VERY WELL, AND HEALTHY. Tree Kills Tree.

A Victoria clergyman had an orange and a pine tree in his garden. One spring it was noticed that the orange tree was drooping, and on digging down he found that the roots of the pine, which stood at some distance, had twisted around the taproot of the orange tree and were strangling it to death. The offending roots were untwisted and cut away, and the drooping plant revived. The tree eventually died. Then on digging down at a greater depth the clergyman found the pine had attacked the orange root lower down and accomplished its murderous end.

RHEUMATISM ABSOLUTELY CURED

RHEUMATISM is directly traceable to bad blood. All first-class authorities will tell you so. It is a reasonable proposition then that outward applications can at best afford only temporary relief; and permanent results must depend on removing the cause of the disease. If you want to kill a thistle, simply mowing it down does not do so; the root springs up and a more sturdy growth follows. To kill it you must destroy the root. It is just the same in curing RHEUMATISM; killing the pain for a few minutes or hours does not cure the disease; you must get at the root of the disease and that is BAD BLOOD.

LIFE PLANT THE GREATEST OF ALL BLOOD REMEDIES

is a positive, effective and safe cure for all blood disorders. OIL OPERATIONS NOT TO CEASE

Judge Laubie's Important Rulings in the Salem Iron Company Case.

EFFECT OF AN INJUNCTION

Would Produce More Lasting Injury Than the Aggrieved Parties Can Suffer By Its Refusal—It Would Paralyze a Great Business.

* Lisbon, April 8.—(Special).—In reaffirming the lower court in its refusal of permanent injunction in the suit of the Salem Iron company versus H. H. Hyland et al, oil drillers operating near Leetonia, Judge Peter A. Laubie, of the circuit court, made the following rulings:

"The evidence shows that the defendants were discharging, into the stream in question daily a large quantity of salt water, and claimed the right to continue to do so; that before and when they commenced to do this the plaintiff was a riparian proprietor lower down on the stream, and had been and was rightfully using water from the stream in its business and otherwise, and that, so far as the plaintiff is concerned, such discharge polluted the water of said stream to the substantial injury of the plaintiff's riparian rights."

"But the question remains, is the plaintiff entitled to the injunction prayed for, or must it seek its remedy in damages in a court of law? Courts of equity do not grant injunctions where it would produce far greater injury to the defendants than the injury to the plaintiff if refused, and more especially if the injunction would injudiciously affect commerce and strangle a business of the community."

Here Judge Laubie quoted some authorities on the general doctrine advanced, and continuing, said:

"The evidence shows that the defendants are engaged in is one of large public concern and in an extensive oil territory; and that there is no way of sinking oil wells in this and other parts of the state without pumping out and discharging large

quantities of salt water; and that the defendants have no method of disposing of it save in the way complained of; that is, discharging it into such stream; and that, if they were restrained from so discharging such water into such stream it would compel them to abandon such business and in effect would compel all other persons to abandon the business in this and other parts of the state.

"The effect of granting such an injunction would be to strangle a large business which the community is interested in having carried on, and an injunction would produce far greater and more lasting injury to the defendant than the plaintiff can suffer by its refusal. The plaintiff must seek its remedy at law, and the petition is dismissed at its cost."

SIX NEW AMENDMENTS

TO BRANNOCK BILL

RUNS THE GAUNTLET IN SENATE JUDICIARY BODY.

Residence District Definition the Point of Contention—Trouble Over Election Bill.

Columbus, April 8.—The Brannock bill has begun to run the amendment gauntlet before the senate judiciary committee. Six minor "corrective" amendments, five by Mr. Heinlein and one by Mr. West, were adopted and then a long discussion without final action was had on the following amendment by Senator Shallenberger:

"The phrase 'residence district,' as used in this act, shall be construed to mean any clearly described, contiguous, compact section of territory in a municipal corporation bounded by street, corporation or other well recognized lines or boundaries, and containing not fewer than — electors qualified to vote at state elections, nor more than — such qualified electors, which does not contain any territory separately or part of any other territory having a frontage of 300 feet or more, which is substantially business property; provided further that said district shall not include the side of any block less than 500 feet of which is substantially business property."

"In ascertaining the character of property, premises occupied by any charitable or benevolent institutions, by schools, public or private; by churches or hospitals, shall be counted as residence property. Premises used for other public purposes shall not be counted as either business or residence property. Vacant lands shall be counted as business or residence property, as the case may be, according to the general character of land in its immediate neighborhood in the same block or side of block and portion of street exactly thereto."

"The term 'block' shall be construed to mean the territory bounded by four well recognized streets, and not alleys."

This amendment was offered by Attorney Wayne B. Wheeler, of the Anti-Saloon league, on the ground that "no man can make it carry any sensible conclusion."

The advocates of the Harvey election bill were surprised and indignant late Tuesday over the unexpected action of the senate elections committee in favorably reporting the Hypes election bill. The advocates of the latter are willing to have it amended to become effective on enactment, so as to satisfy the Cleveland Republicans who want the so-called "Johnson" city election board wiped out before delegates to the state and national conventions are chosen.

The Spanish Wine Tester.

Speaking of the preparation of Spanish wines, an expert said:

"When the grapes are crushed and the juice has been extracted, it is placed in big 160 gallon butts, and left to stand. For six years it is not even touched. Then, a wine expert goes through the butts, testing them by smell. His nose is the only means used to determine the value and fineness of the wine."

"Now, it is a peculiar fact and one that has never been explained that from the same vintage, secured under the same circumstances, many different grades of wine will be secured. Some of it will be pale, some medium, some dark. Only about one-third of it will be of the best quality. It is the duty of the wine tester, by means of his nose alone, to determine what butts contain the pale wine, etc., and what butts contain the best. He is able to separate the various qualities. Then the wine is bottled, labeled and shipped to foreign consumers."

Delhi and Its History.

Shah Jehan in 1631 built the present city of Delhi, close to the old Delhi, and made it the royal residence. The Mohammedans still call it Shahjahanabad, the "city of the king of the world." Nadir Shah, the Persian usurper, captured it in 1739, massacred thousands of the inhabitants and bore away plunder to the value of nearly \$100,000,000, including the famous peacock throne and the great Kohinoor diamond, now in the possession of the British crown.

The British first came into control in 1803, when the Mahrattas were defeated near Delhi by Lord Lake. When the sepoy mutiny broke out in 1857 Shah Mohammed Bahadour, then ninety years old, took command of the city and until the English again triumphed enjoyed the imperial state to which he had long been a stranger.

At the time I began taking your medicine I was very nervous and did not want to see any one—only my own folks. The doctors all said that there was not anything else they could do for me, and also said they did not think that I would ever be any better, and if I was better I would never be able to walk again. A friend of mine was taking Paine's Celery Compound at the time and I thought I would try it. I took several bottles before I saw much improvement. But soon my nervousness left me. I again enjoyed seeing all who called at the house. I kept right on gaining until now I call myself VERY WELL AND HEALTHY. Tree Kills Tree.

A Victoria clergyman had an orange and a pine tree in his garden. One spring it was noticed that the orange tree was drooping, and on digging down he found that the roots of the pine, which stood at some distance, had twisted around the taproot of the orange tree and were strangling it to death. The offending roots were untwisted and cut away, and the drooping plant revived. The tree eventually died. Then on digging down at a greater depth the clergyman found the pine had attacked the orange root lower down and accomplished its murderous end.

RHEUMATISM ABSOLUTELY CURED

RHEUMATISM is directly traceable to bad blood. All first-class authorities will tell you so. It is a reasonable proposition then that outward applications can at best afford only temporary relief; and permanent results must depend on removing the cause of the disease. If you want to kill a thistle, simply mowing it down does not do so; the root springs up and a more sturdy growth follows. To kill it you must destroy the root. It is just the same in curing RHEUMATISM; killing the pain for a few minutes or hours does not cure the disease; you must get at the root of the disease and that is **BAD BLOOD**.

YOUR PROTECTION IS OUR GAIN

Do you believe that we can afford to sell you something you don't want or that will not give you satisfaction? Our business depends on pleased customers. In fact any business does. Therefore we would take an enormous risk did we not fulfill every promise made in the columns of this newspaper.

With this point in mind—let us ask what risk you take in buying Rexall Mucu-Tone when we say we will give back your money if the remedy doesn't give satisfaction.

If we didn't believe that 98 per cent. of all who have taken Mucu-Tone have been benefited, we would not publish this advertisement.

There are any number of people right here at home who will gladly testify to Mucu-Tone's wonderful virtues, and if you call we'll gladly refer you to them. Read what Mr. Matt. Dillon writes:

"My little girl had catarrh so badly that the disease had begun to eat into the cartilage of the nose. Snuffs and instruments failed to do more than give temporary relief. I saw the advertisements of Mucu-Tone, but I could not believe that anything taken in the stomach could cure the sore membranes of the nose. However, I took advantage of your free trial offer and my girl began taking your remedy according to directions. I want to say right here that Mucu-Tone is certainly the greatest medical discovery of the times, and to thank you for the liberal offer that first induced me to give it a trial. Mucu-Tone has cured my daughter's catarrh completely. The discharge has stopped altogether and her breath is as sweet as can be. Again thanking you, MATT. DILLON, 24 N. Swans St., Albany, N. Y."

If you suffer from any of the following symptoms, we know that Mucu-Tone will immediately cure you. If it doesn't it's our loss, not yours.

Run down—can't work—feel constantly tired—have no appetite—or if you suffer from sore lungs, weakness, nervousness, pains in the stomach or back, then it is that you need Rexall Mucu-Tone.

Catarrh is not confined to the nose and throat. It may start there, but it leads to more serious trouble, particularly to the wasting away of tissues, which means a loss in weight. One bottle of Mucu-Tone will start you on the right road. It will put flesh on your bones and bring new vitality to your system.

Operations Avoided

Hospitals in our great cities are sad places to visit.

Three-fourths of the patients lying on those snow-white beds are women and girls.

Why should this be the case? Because they have neglected themselves.

Every one of these patients in the hospital beds had plenty of warning in that bearing-down feeling, pain at the left or right of the womb, nervous exhaustion, pain in the small of the back. All of these things are indications of an unhealthy condition of the ovaries or womb.

What a terrifying thought! These poor souls are lying there on those hospital beds awaiting a fearful operation.

Do not drag along at home or in your place of employment until you are obliged to go to the hospital and submit to an examination and possible operation. Build up the female system, cure the derangements which have signified themselves by danger signals, and remember that **Lydia E. Pinkham's Vegetable Compound** has saved thousands of women from the hospital. Read the letters here published with the full consent of the writers, and see how they escaped the knife by a faithful reliance on Mrs. Pinkham's advice and the consistent treatment of

Lydia E. Pinkham's Vegetable Compound.

READ THE FOLLOWING LETTERS:

"I was taken sick very suddenly July 13th with severe cramps, or pains. I summoned a doctor and was in bed a week lying on my back all the time. The pains left me very sore. In a few weeks I was feeling better but was soon taken sick again with those pains and had another doctor. This one said I had neuralgia pains of the stomach and ovaries. He injected morphine and eased me again, but I remained sore and weak from the pains and continued to flow for one month and three days without stopping for one day.

"The doctors wanted to scrape the womb, saying the lining was inflamed. I had a pain at times in my right ovary and felt weak nearly all the time. Am only twenty years old, never was sick until this sickness in July. Menses never lasted more than four days and never an ache or a pain.

"I began the use of **Lydia E. Pinkham's Vegetable Compound** and soon was feeling better. I am now well and strong again. Your medicine has relieved me of the pain in my side and stopped my flowing which the doctors could not do.

"I feel very grateful to you and can recommend your medicine to all suffering women."—LUCILLE A. GAINES, 2348 Pine St., St. Louis, Mo.

"I suffered with female trouble for over eight years, had womb trouble and painful menstruation. Have been under the care of doctors who said I would have to submit to an operation before I could be cured. I suffered everything.

"One day I picked up a paper and noticed your advertisement and a testimonial from a friend I knew, stating your medicine had cured her so I thought I would try it. CHAPTER XVIII.

HENRY contrived to send early news of Anne's safety to Castle Hill, so that when she returned there she found the household undisturbed.

The sound of war had moved eastward down the peninsula. Lafayette, the "boy," who the British commander wrote could not escape him, without sufficient men to meet his adversary went playing chase the fox. He hung on Cornwallis' flanks, covering the American stores, anticipated his moves, harassed him, worried him with a thousand pin pricks. In return Tarleton and Simcoe played their wanton mischief, slaughtered the cattle, cut the throats of the young horses, destroyed the growing corn and tobacco and burned the barns. The path of the British front remained a trail of ruin and desolation.

Anne's sight of Armand at the river camp had seared her heart with a wish to be less far from him. She dreamed of battlefields on which he lay dying—and she still misunderstood, still unforgiven.

Letters meantime came from Betsy Byrd. Her father had been failing in health, was taking no part in the struggle, and so far Westover had been in no way molested. Francis was a captain in Weedon's regiment.

"Only think, dear," wrote Betsy, "tis the same old man who kept the tavern at Fredericksburg. To think of Frank serving under him!" An unconscious indication of the maternal leanings.

If other were needed, it was easily to be found. General Arnold had stopped for dinner on his raid upon Richmond, and Cornwallis had crossed the river at Westover and had been entertained. Pages were devoted to a description of Tarleton, over whom Betsy went into raptures.

Spurred by her craving for nearer news of the armies than reached Charlottesville. Anne answered in person the invitation the letters held, rode to Richmond with Henry when he returned from the assembly at Staunton, and from Richmond came in two hours' sail to Westover.

The war had touched Mrs. Byrd lightly. She was as handsome and as peppy as ever and exhibited a certainty of British plans which Anne had occasion to remember later when there were no gentle whispers of investigating the self-satisfied lady's conduct. She treated the visitor, however, on this occasion with consideration and retained from using the word "rebel"

often than she deemed necessary. Nor did she gibe at Francis' commission in the Continental army.

A week spent at Westover, the Byrd plunage took Anne down the river to Burwell's, a proceeding at which Mrs. Byrd feebly protested, as the place was within a half dozen miles of Williamsburg, now the center of activity of both armies. But Anne reminded her that Colonel Tiltonson was with Governor Nelson's militia in the neighborhood and would not be dissuaded.

The first hours of her arrival at Burwell's were glided by two bits of news—one that her uncle was daily expected there, the other that Gladden Hall was as yet undisturbed.

But this latter gleam was soon to be clouded. Mammy Evaline appeared the morning after Anne's arrival, half crazed with grief and fear that was not appeased by the unexpected sight of her mistress.

She threw herself in a quivering heap and clasped Anne's feet.

"Lor' bress yo', honey!" she sobbed. "Dee come at las! Co'nwallis done ransack Gladden Hall las' night, en he sojers kynd' meh po' boy erway wid 'em. What's we ter do, honey? Dee's dar now. Yo' reck'n dee done kilt him yit?"

An hour later Anne took the Yorktown highroad, mounted on the least tempting of the horses the Burwells kept hidden in the woods. Opposite Williamsburg she climbed a knoll, but could see little sign of life in its deserted streets. Small wonder, for Cornwallis was only a handful of miles away. Here she turned to her left into an unused bridge path leading by a short cut to Gladden Hall.

She went boldly enough, with many self assurances, and so, a bare half mile from the gates, rode full tilt upon a group of British soldiery resting in the shade.

They sprang to their feet as her horse went back upon his haunches, and two of them seized his bridle, but dropped it

at a word from an officer. The latter came forward.

"Your pardon, mistress," he said courteously, but firmly. "You cannot pass farther in this direction."

"Why not?" she asked calmly. "Tis the first time I was ever denied entrance to my own home."

He bowed now, with hat in his hand. "General Cornwallis occupies the house at present as his own quarters."

"I know it. I have personal business with his lordship."

"In that case," he responded, "you may pass. I shall take pleasure in escorting you. I am one of the general's aids."

He mounted, and they rode in silence to the gates. Here and there a picket stepped from the roadside, but saluted as he saw her guide.

The aid stood aside as she entered the hall. Through the half open door of the drawing room she saw braided uniforms grouped about a table from which floated out the sound of laughter and the clink and tinkle of glasses, filled from the cellars.

"And they tell me," rolled a full voice, with a bantering chord in it, "that you would have snared the lot of them at Charlottesville were it not for a girl. Pie, colonel! A dragoon should have a sterner heart! Come, now, make a clean breast of it. Who was the light leeled damsel?"

"Miss Tillotson of Gladden Hall," announced the aid at the door.

Anne went red and white at this contretemps, and Tarleton sprang up with such an exclamation that Lord Cornwallis, who had risen also, looked astonishment from one to the other. Then the commander caught the situation and laughed, as did the whole company.

The merriment sent resentment to Anne's face, and the general sobered instantly into courteous contrition.

"You bear easy honors, mistress," he said.

said, "therefore overlook our hilarity, which, I do protest, was yet all timed in the pain which the hard usage of such a noble mansion must bring. I regret," he added, "that such things must be. War is not a tender game, and beauty must suffer with the rest."

"You mistake," she told him quickly. "I come not to complain, but to ask a favor. A negro was taken on this property and is now held by your men. He has been my own body servant all my life. Surely you cannot lack for servants. I ask you now to give him back to me."

"It's the nigger named John the Baptist, I presume, sir," suggested one of the officers. "Colonel Dundas has him."

Cornwallis bowed, with an easy, good humored smile on his big, confident, masterful face. "We who enjoy the hospitality of this mansion can scarce refuse so light a favor to her who, under happier circumstances, should be our hostess. You shall have your body servant, mistress."

"I thank your lordship," said Anne, with dignity.

Seating himself, Cornwallis wrote a hasty line, folded the paper and handed it to her.

"Colonel Dundas' brigade lies with Simcoe at Spencer's ordinary on the Williamsburg road," he said. "He will give you return passes."

The officers rose as she swept a low courtesy from the threshold. The aid

Two of them seized his bridle, held her stirrup with deference, and she cantered down through the gates and took the west road with a joyfully beating heart and the written order in the pocket of her gown.

But she did not finish the journey. She had fared scarce half the way when a far popping came from the distance. The next hill showed puffs of smoke hanging above the trees, and she knew that the sound was the rattle of engaging musketry. Could her eye have pierced beneath that foliage she would

have seen the first skirmish of Lafayette's campaign, the brilliant charge of McPherson's dragoons upon Simcoe's rangers.

She had pulled up, startled at the sound, when a low but familiar voice called her from the thicket.

"John the Baptist!" she cried.

"Yas'm, Mis' Anne, et's me," he responded, with a moist grin, parting the bushes. "I warn' gwinter curry no Britisher hosses long! 'Twarn' no use'n 'em wallopin' me—me hild's tougher'n whitt leather."

"They let you go?"

He threw back his head like a bay-hound and laughed loosely.

"Norm! Dem squinch eyed scoun'ls nuver let nuttin' go. I kep' meh eyes skunt en tuk ter de bresh dis vey maw'nin' slicker'n er weasel. Greased lightnin' couldn't ketch me! What yo' doin' heah, Mis' Anne? Whar yo' been?"

"At Burwell's."

"Yo' jes' ride lickety cut down dar ergain. Dat's de bes' place. 'Speck Mars' John be down dar 'trecky!'"

For a fortnight Burwell's heard the grind and rush of the armies so near. At length this lull, Cornwallis had withdrawn sullenly into Yorktown.

Then in early September a momentous message flew from lip to lip. Washington was coming! The wary commander in chief, pretending peace against New York, had led Sir Henry Clinton to recall part of his force from the Chesapeake and then, turning front, had marched with speed for Virginia, where Cornwallis lay with all his army in the elbow of the bay, leisurely fortifying.

Back of this swift march of 400 miles lay vital tidings. A new French fleet was on its way to the Chesapeake. Lafayette drew his troops between the British and a retreat into the Carolinas. The patriot army was hastening down upon them from the north. Would Clinton scent danger and send ships to snatch Cornwallis from the closing jaws, or would the French fleet come in time to block the sea way out?

But Virginia knew nothing of this at first. She only knew that Washington was coming.

"Only think, dear," wrote Betsy, "tis the same old man who kept the tavern at Fredericksburg. To think of Frank serving under him!" An unconscious indication of the maternal leanings.

If other were needed, it was easily to be found. General Arnold had stopped for dinner on his raid upon Richmond, and Cornwallis had crossed the river at Westover and had been entertained. Pages were devoted to a description of Tarleton, over whom Betsy went into raptures.

Spurred by her craving for nearer news of the armies than reached Charlottesville, Anne answered in person the invitation the letters held, rode to Richmond with Henry when he returned from the assembly at Staunton, and from Richmond came in two hours' sail to Westover.

The war had touched Mrs. Byrd lightly. She was as handsome and as peppy as ever and exhibited a certainty of British plans which Anne had occasion to remember later when there were no gentle whispers of investigating the self-satisfied lady's conduct. She treated the visitor, however, on this occasion with consideration and refrained from using the word "rebel!"

often than she deemed necessary. Nor did she gibe at Francis' commission in the Continental army.

A week spent at Westover, the Byrd platoon took Anne down the river to Burwell's, a proceeding at which Mrs. Byrd feebly protested, as the place was within a half dozen miles of Williamsburg, now the center of activity of both armies. But Anne reminded her that Colonel Tilton was with Governor Nelson's militia in the neighborhood and would not be dissuaded.

The first hours of her arrival at Burwell's were gilded by two bits of news—one that her uncle was daily expected there, the other that Gladden Hall was as yet undisturbed.

But this latter gleam was soon to be clouded. Mammy Evaline appeared the morning after Anne's arrival, half crazed with grief and fear that was not appeased by the unexpected sight of her mistress.

She threw herself in a quivering heap and clasped Anne's feet.

"Lor' bress yo', honey!" she sobbed. "Dee come at las'! Co'wallis done ransack Gladden Hall las' night, en he soles kyar'd meh po' boy erway wid 'em. What's we ter do, honey? Dee's dar now. Yo' reck'n dee done kilt him yit?"

An hour later Anne took the Yorktown highroad, mounted on the least tempting of the horses the Burwells kept hidden in the woods. Opposite Williamsburg she climbed a knoll, but could see little sign of life in its deserted streets. Small wonder, for Cornwallis was only a handful of miles away. Here she turned to her left into an unused bridge path leading by a short cut to Gladden Hall.

She went boldly enough, with many self assurances, and so, a bare half mile from the gates, rode full tilt upon a group of British soldiery resting in the shade.

They sprang to their feet as her horse went back upon his haunches, and two of them seized his bridle, but dropped it.

at a word from an officer. The latter came forward.

"Your pardon, mistress," he said courteously, but firmly. "You cannot pass farther in this direction."

"Why not?" she asked calmly. "'Tis the first time I was ever denied entrance to my own home."

He bowed now, with hat in his hand. "General Cornwallis occupies the house at present as his own quarters."

"I know it. I have personal business with his lordship."

"In that case," he responded, "you may pass. I shall take pleasure in escorting you. I am one of the general's aids."

He mounted, and they rode in silence to the gates. Here and there a picket stepped from the roadside, but saluted as he saw her guide.

The aid stood aside as she entered the hall. Through the half open door of the drawing room she saw braided uniforms grouped about a table from which floated out the sound of laughter and the clink and tinkle of glasses, filled from the cellars.

"And they tell me," rolled a full voice, with a bantering chord in it, "that you would have snared the lot of them at Charlottesville were it not for a girl. Fle, colonel! A dragoon should have a sterner heart! Come, now, make a clean breast of it. Who was the light heeled damsel?"

"Mistress Tiltonson of Gladden Hall," announced the aid at the door.

Anne went red and white at this contretemps, and Tarleton sprang up with such an exclamation that Lord Cornwallis, who had risen also, looked astonishment from one to the other. Then the commander caught the situation and laughed, as did the whole company.

The merriment sent resentment to Anne's face, and the general sobered instantly into courteous contrition.

"You bear easy honors, mistress," he

said, "therefore overlook our hilarity, which, I do protest, was yet in time in the pain which the hard usage of such a noble mansion must bring. I regret," he added, "that such things must be. War is not a tender game, and beauty must suffer with the rest."

"You mistake," she told him quickly. "I come not to complain, but to ask a favor. A negro was taken on this property and is now held by your men. He has been my own body servant all my life. Surely you cannot lack for servants. I ask you now to give him back to me."

"It's the nigger named John the Baptist, I presume, sir," suggested one of the officers. "Colonel Dundas has him."

Cornwallis bowed, with an easy, good humored smile on his big, confident, masterful face. "We who enjoy the hospitality of this mansion can scarce refuse so light a favor to her who, under happier circumstances, should be our hostess. You shall have your body servant, mistress."

"I thank your lordship," said Anne, with dignity. Seating himself, Cornwallis wrote a hasty line, folded the paper and handed it to her.

"Colonel Dundas' brigade lies with Simcoe at Spencer's ordinary on the Williamsburg road," he said. "He will give you return passes."

The officers rose as she swept a low courtesy from the threshold. The aid

Two of them seized his bridle, held her stirrup with deference, and she cantered down through the gates and took the west road with a joyfully beating heart and the written order in the pocket of her gown.

But she did not finish the journey. She had fared scarce half the way when a far popping came from the distance. The next hill showed puffs of smoke hanging above the trees, and she knew that the sound was the rattle of engaging musketry. Could her eye have pierced beneath that foliage she would

have seen the first skirmish of Lafayette's campaign, the brilliant charge of McPherson's dragoons upon Simcoe's rangers.

She had pulled up, startled at the sound, when a low but familiar voice called her from the thicket.

"John the Baptist!" she cried.

"Yas'm, Mis' Anne, et's me," he responded, with a moist grin, parting the bushes. "I warn' gwinter curry no skunt en tuk ter de bresh dis v'y mawlin' slicker'n er weasel. Greased lightning! couldn't ketch me! What yo' doin' heah, Mis' Anne? Whar yo' been?"

"They let you go?"

He threw back his head like a bay-hound and laughed loosely.

"Norm! Dem squinch eyed scoun'ls nuvver let nuttin' go. I kep' meh eyes skunt en tuk ter de bresh dis v'y mawlin' slicker'n er weasel. Greased lightning! couldn't ketch me! What yo' doin' heah, Mis' Anne? Whar yo' been?"

"At Burwell's."

"Yo' jes' ride lickety cut down dar ergain. Dat's de bes' place. 'Speck Mars' John be down dar 'reckly."

For a fortnight Burwell's heard the grind and rush of the armies so near. At length this lulled. Cornwallis had withdrawn suddenly into Yorktown.

Then in early September a momentous message flew from lip to lip. Washington was coming! The wary commander in chief, pretending plans against New York, had led Sir Henry Clinton to recall part of his force from the Chesapeake and then, turning front, had marched with speed for Virginia, where Cornwallis lay with all his army in the elbow of the bay, leisurely fortifying.

Back of this swift march of 400 miles lay vital tidings. A new French fleet was on its way to the Chesapeake. Lafayette drew his troops between the British and a retreat into the Carolinas. The patriot army was hastening down upon them from the north. Would Clinton scent danger and send ships to snatch Cornwallis from the closing jaws, or would the French fleet come in time to block the sea way out?

But Virginia knew nothing of this at first. She only knew that Washington was coming.

Topics of the Moment Among Horsemen and Pugilists. Jockey Robbins.

Jockey Walter F. Robbins is the latest pupil of the Crescent City Jockey club's kindergarten for riders who will make a bid for eastern patronage and money this season. He will ride on the New York tracks, but just who his employer will be has not been definitely decided upon. He has had two offers—one from James R. Keene and the other from Tom Healy, the trainer for R. T. Wilson, Jr.

Robbins is third on the winning list of riders at the New Orleans track. He has had great success with Doc Street's horses, which are all leased

YOUNG CORBETT PUNCHING THE BAG. (Young Corbett, the wonderful little Denver featherweight fighter, is a splendid bag puncher. He believes the exercise to be most valuable and always indulges in it while in training for a fight. Young Corbett recently wrote a book on bag punching, and in it he displayed a wonderful knowledge of the scientific side of the sport.)

thoroughbreds belonging to James R. Keene. Through this lad's clever handling these horses have won \$14,298, nearly \$3,000 more than any other stable secured during the winter.

It was this success and ability in the

saddle that caused Mr. Keene, through an agent, to ask Robbins his terms for his services during the summer months. The lad wired that he would accept a \$1,000 retaining fee, with the additional \$25 and \$10 winning and losing mounts.

This offer had scarcely been sent when Robbins received a telegram from Healy asking him not to close with any other horseman before he had heard from R. T. Wilson, Jr. Healy said that the young millionaire horseman was out of the city and that he would try to secure some proposition from him looking toward Robbins' services.

All this occurred but recently. Since then no further moves have been made toward the employment of Robbins. In all probability he will ride for Mr. Wilson this summer.

Robbins has had two years' experience in the saddle on the western tracks and is considered a first class rider, as he has nice hands and is an excellent judge of pace. His particular forte is riding in front of the field. He can ride at ninety-five pounds.

Physicians state that "Philadelphia Jack" O'Brien, who recently fought Tommy Ryan for the middleweight championship, is endangering his life by his continued activity. He has fought so many battles during the last two years that a well known medical man says that unless he takes a rest he will drop dead of heart disease within a year or two. Another specialist, however, has assured him that his heart is sound and all he need worry about is a slight disorder in his stomach. The next doctor who comes along will be claiming that O'Brien is suffering from enlargement of the chest if he keeps up his winning gait over the kind of company he fights.

O'Brien has a wonderful muscular development. The Quaker City boxer when stripped ready for the fray is a physical marvel. His arm, neck and shoulder muscles stand out like whipcords. In this respect O'Brien is in a class by himself. He has all of the other boxers outclassed when it comes to muscles. Even Jim Jeffries has not the perfect muscular development O'Brien possesses.

Ordinarily the muscles of the fighter are little in evidence. When released they are scarcely seen. Fighters do not believe that a heavy muscular development is necessary. Jeffries and Corbett have muscles that are supple, yet have power and strength. Fitzsimmons comes nearer to O'Brien in his muscular development than any of the other fighters. Notwithstanding the development of his body muscles, O'Brien possesses great speed. He is not muscle bound. He can land a terrific blow with as much speed as any of the topnotch boxers.

Few fighters have fought more battles than O'Brien.

Wars and Births. Statistics of population seem to show that after long and severe wars in which many men are killed and the male part of a country's population is greatly decreased there is for several years a preponderating birth of male children until the normal proportion between the sexes is restored. This seems to have been noted after the Thirty Years' war in Germany, after the Napoleonic war in France and even in more recent times after the siege of Paris.

Condensed. "Do you buy condensed milk, madam?"

"I presume that we must, but I never thought of it before. I always order two quarts and pay for two quarts, but it never measures more than three pints."

A Hint to the Engaged. There is a superstition which says that engaged couples who are photographed together never get married. Superstition is gradually dying down, so that few would be kept back by an old woman's saying. There is, however, one thing which should keep engaged couples from being photographed together, and that is the thought that if either or both should marry some one else the fewer tokens there are of previous love affairs the greater is the chance of happiness in the final choice.

Catching Pigeons in Queens-town. The ragged children of Queens-town catch pigeons in a curious way. Seated in a row on the edge of the pavement, they each have a string stretching into the road, at the end of which is a noose surrounding some tempting breadcrumbs. Homeless pigeons pounce on the meal and are as quickly jerked to the pavement by the cheering youths.—London Graphic.

A Caution. Reginald—I love you, Madeline. For you I would give up family, position, wealth. Madeline—Hold, Reginald! Giving up family is all right; I fain would be spared a mother-in-law. Give up your position if you can get a better one, but please hold on to your wealth. We may need it.

The Wrong Market. Mrs. Newlywed—Have you any nice slumps this morning? Butcher—Slumps? What are they? Mrs. Newlywed—Indeed, I don't know, but my husband is always talking about a slump in the market, and I thought I should like to try some.—Philadelphia Record.

Why He Didn't Pay. "I have bet a silk hat with that man five times in the last year, and he has never paid me one of them." "That so? I didn't know he was in the habit of breaking his word." "Oh, he isn't; he won the bet."—Cincinnati Times-Star.

How to Ward Off An Attack of Rheumatism.

"For years when spring time came on and I went into gardening, I was sure to have an attack of rheumatism and every attack was more severe than the preceding one," says Josie Melton, of Man, Logan county, W. Va. "I tried everything with no relief what ever, until I procured a bottle of Chamberlain's Pain Balm, and the first application gave me ease, and before the first bottle was used I felt like a new person. Now I feel that I am cured, but I always keep a bottle of Chamberlain's Pain Balm in the house, and when I feel any symptoms of a return I soon drive it away with one or two applications of this liniment." VAUGHN TRAPPED BY DECOY LETTERS

FIGURED IN SENSATIONAL ELOPEMENT.

Had Been Chased Over Many States.
Escaped Requisition in New York.

Columbus, April 8.—Decoy letters led to the arrest of Frederick B. Vaughn at the Union station and he was lodged in jail by County Detective Robert G. Robinson, of Pittsburg. He has been returned to Pennsylvania. The prisoner had evaded the authorities for several months and the chase extended over half a dozen states.

The charge of criminal seduction against Vaughn are the result of his sensational elopement with Miss Lyde Willock, a member of a prominent family of Beaver, Pa., about four months ago. The girl's father is the complainant, and after inducing his daughter to return home started on a hunt for Vaughn and was rewarded by locating him in New York February 20 last. The police of that city detained him until requisition papers could be procured.

The papers were made out and forwarded to New York, but were returned when it was found that the charge against Vaughn was not a felony. County Detective Robinson took up the case, located Vaughn in Indianapolis, where he was working as a telegrapher under the name of John Small.

Another set of requisition papers were drawn up and it was decided to get the fugitive into Ohio where extradition would be comparatively easy.

Decoy letters were employed with this end in view and Governor Myron T. Herrick certified to the extradition. Robinson came to Columbus Tuesday and with Detectives Barney Bergin and Rourke, of this city, waited for Vaughn's arrival. Tuesday afternoon they were rewarded when their man walked into the place. He was at once placed under arrest and taken back to Pittsburg to stand trial.

Vaughn is a married man. When arrested here he was practically penniless, and decided to give up the fight against returning to Pittsburg to face the charge against him.

GEN. MILES CAN HAVE IT

Endorsement of Ohio Prohibitionists is His if He Wants It.

Columbus, April 8.—According to one of the leading Prohibitionists of the city, General Miles is making a serious mistake in waiting to see what the Democratic party will do regarding its candidate.

"The Prohibition party," said the leader, "is not numerically strong in Ohio, there being but 13,000 votes cast for our last candidate for governor, but we are not in the habit of taking what's left in the way of candidates. General Miles should express himself more clearly if he will stand for the Prohibition nomination, instead of waiting. He'd make a strong candidate for the party, but if he's turned down by the Democrats and then asks for the Prohibition nomination, he'll undoubtedly be disappointed.

"The state convention, however, is not expected to take any action on the subject by either endorsing a candidate that has been announced or suggesting the name of a new man. General Miles could hardly expect an endorsement at this time."

A. H. Bulger Warrants Every Bottle.

If troubled with rheumatism, give Chamberlain's Pain Balm a trial. It will not cost you a cent if it does no good. One application will relieve the pain. It also cures sprains and bruises in one-third the time required by any other treatment. Cuts, burns, frostbites, quinsy, pains in the side and chest, glandular and other swellings are quickly cured by applying it. Every bottle warranted. Price 25 and 50 cents. A. H. Bulger.

Soulages Canal. Soulages canal, fourteen miles in length, is the largest waterway on the St. Lawrence system of canals and undoubtedly of vast importance to Canadian commerce. Many difficulties had to be overcome in its construction, not the least of which was to avoid upsetting the course of three rivers. This was accomplished by providing pipes, which allowed the river to pass under the canal. Needless to say, the canal is not a very deep one.

A Great Sensation.

There was a big sensation in Leesville, Ind., when W. H. Brown, of that place, who was expected to die, had his life saved by Dr. King's New Discovery for Consumption. He writes: "I endured insufferable agonies from asthma, but your New Discovery gave me immediate relief and soon thereafter effected a complete cure." Similar cures of consumption, pneumonia, bronchitis and grip are numerous. It's the peerless remedy for all throat and lung troubles. Price 50 cents and \$1. Guaranteed by Will Reed, Charles F. Larkin, C. G. Anderson, J. D. Holloway, druggists. Trial bottles free.

PROBATE MATTERS

Wills Filed and Questions Submitted to the Court For Decision.

Lisbon, April 8.—(Special).—K. F. and L. C. Hawkins have qualified as executors of John Hawkins, late of Lisbon. Appraisers, P. M. Armstrong, W. W. Henry and Reed Wilcoxen.

The will of the late Samuel Mick, of Madison township, has been admitted to probate. It leaves all the property to the widow, to be used by her for her support, at her death to go to the son, Thomas Allison Mick. The farm of 140 acres will descend to the son, who is directed to make certain bequests to the remaining children. The faithful performance of this requirement is made a charge on the farm. Thomas A. Mick is named as executor.

The will of the late Jane Hannum, of Washington township, has been filed for probate and the application set for hearing April 23. To the daughter, Elizabeth Russell, is left a house and three lots in Highlandtown and a farm of 160 acres and an adjoining tract of 14 acres. All the personal property is left to this daughter, who is instructed to give \$200 each to the remaining children, Margaret L. London and Andrew, James and Joseph Hannum. Mrs. Russell is named as executrix without bond.

Ordinary household accidents have no terrors when there's a bottle of Dr. Thomas' Electric Oil in the medicine chest. Heals burns, cuts, bruises, sprains. Instant relief.

SALINEVILLE

Salineville, April 8.—James George, of Scroggsfield, was in town Wednesday. He is a prominent stock dealer in Carroll county.

The Dresden pottery is shipping ware daily to a southern market. The funeral of Miss Belle Gallagher took place Wednesday from her late home on Main street. The remains were brought here Tuesday noon from Cleveland, where she died a few days ago, at the home of a sister, where she had been sick for a few months. Interment was made at Summitville and the body followed to the grave by a large concourse of friends and neighbors. Services were held at the chapel at Summitville.

H. A. Thompson, the banker, accompanied by one of the Hetherington brothers, made a business trip Wednesday to the Belmont county coal fields.

Henry Miller and wife, of Wattsfield, were in town, the guests of Armstrong Lowther, in the West End. They closed a contract with him for 80 acres of land in Fox township.

James Allmon, of Greenbriar, near Pine Hill, was in town Wednesday, the guest of Mr. and Mrs. R. G. Thompson.

Banana Crop Every Fifteen Days.

"There is evidently an erroneous idea abroad concerning the harvesting of the banana crop," said a man who has been for seven years on a plantation in Honduras.

"The statement that four or five crops of bananas are harvested a year is entirely incorrect. A crop is harvested on an average of every fifteen days throughout the year. Each thrifty banana plant has many suckers or stalks growing from a single root at the same time. One or more bunches of the ripening fruit are cut from a single stalk, while the other stalks grow from the same root are left untouched, and in fifteen days another of the stalks is shorn of its fruit. This process continues incessantly during the year. In July and August it is necessary to cut off the ripening bunches every ten days, while in December and January about once a month is sufficient, the average throughout the year being practically fifteen days."—Mexican Herald.

Who Were They?

To one great fact do all the most ancient epochs of history bear witness; one and all they prove the existence in a yet more remote past of an already advanced civilization such as could only have been gradually attained after long and arduous groping. Who were the founders of this civilization? Who were the earliest inhabitants of the earth? To what biological conditions were they subject? What were the physical and climatic conditions of the globe when they lived? By what flora and fauna were they surrounded? But science pushes her inquiry yet further. She desires to know the origin of the human race—when, how and why men first appeared upon the earth, for, from whatever point of view he is considered, man must of necessity have had a beginning.—"Manners and Monuments of Prehistoric Peoples."

A Thoughtful Man.

M. M. Austin, of Winchester, Ind., knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she got relief at once and was finally cured. Only 25c, at Will Reed's, C. T. Larkins, C. G. Anderson's and J. D. Holloway's drug stores.

Larkins, The Drug Man.

The Razor Crank.

"A man may be quite rational and reasonable in all ordinary affairs and yet be quite daffy on the subject of razors," said the barber. "I have one customer, for instance, who keeps six razors here—one for every day in the week that a man is supposed to get shaved—and pays me to hone them every week. Some mornings I have to try them all on him before he stops grumbling and even then may have to use one of my own razors. At other times he will order me to use the same razor for a week or two. I can't fool him by changing it either."

"Another customer who comes in only for an occasional shave talked to me for six months about the fine razor he had at home. I told him that as we seemed to have none in the shop to suit him I should be obliged if he would bring it around for me to look at. He did. Well, sir, it was a neat ex. I would as soon think of shaving a man with a carving knife. But I shaved him with it, and he never peeped."—New York Press.

Dante Rossetti's Practical Joker.

One day Howell picked up a treasure in the form of a piece of old blue Nankin. He invited a party of friends to come and admire it, and Rossetti surreptitiously carried it home with him and invited the same party to come and view an equally fine piece of china in his own possession. But Howell had his revenge. Guessing what had happened, he found his way to Rossetti's hiding place, took away the china and put another dish in its place. When the party assembled Rossetti was challenged to produce the china.

He returned to the dining room with the package and began to carefully remove the wrappings. As the dish became uncovered a curious puzzled expression came over his face, and when it was entirely exposed to view he stood still in blank astonishment. For a few moments he was silent; then his pent up feelings burst out in a wild cry:

"Confound it! See what the spirits have done!"

Every one rose to look at the dish. A dish it was certainly, but what a dish! Instead of the beautiful piece of Nankin that was expected there was only an old deift thing, cracked, chipped and discolored through the numerous bakings it had undergone.

Stopping an Artery.

The prompt application of the tourniquet or even of the finger to stop the bleeding of an artery before the doctor comes will often save life. A wound anywhere below the middle of the upper arm or below the middle of the thigh may be easily stopped by a tourniquet. The simplest improvised form of this implement, which may be always found ready to hand, is a linen handkerchief and a strong stick. The best place to apply the tourniquet for a wound of the arm is above the elbow, where the pulsations of an artery may be felt by any one.

The handkerchief should be tied around the arm rather loosely; the stick is thrust in and turned to tighten it until the blood ceases to flow. Of course this is only a temporary relief till the coming of the doctor, who, in case of serious bleeding, must be summoned as soon as possible. When you have nothing at hand in case of sudden accident even the pressure of the forefinger and the thumb over the wound may arrest the flow of blood for the time.

The People Next Door.

The reason why the people next door are invariably regarded as most worthy of our javelins is plain to me. They have a piano. I do not know of any race that is quite so unpleasant as the people next door. They are not like any ordinary people who live elsewhere. They obtain their music on the hire system, as it were, and it is generally of the type we most detest. Are we worldly minded? They chasten us obtrusively with hymns—Mendelssohn, who is for some obscure reason regarded as a moral force in the suburbs. Are we of the elect? They hurl at us with defiant persistence the latest blood curdler from the "halls." The thing that passes with them for a piano is called upon to do the work of three, and the wall dividing our respective houses, he it borne in mind, is a beautiful conductor of sound.—Outlook.

Washing Woolens

is one of the housewife's most trying tasks. They are practically ruined if they shrink. To prevent it you must be particular about your laundry soap. When it's EASY TASK you're safe. Your woolens may be washed with it for years without fear of their shrinking. You've seen comparatively new woolens full of holes after washing, looking as if the moths had dined on them. Poor soap did that. EASY TASK isn't that kind—it's pure, white, clean, all through, without an injurious ingredient. That makes its use a pleasure and a satisfaction. If you are like most women you have had your woolens shrink and wear full of holes, because some cheap yellow laundry soap was used. Isn't it money to save your clothes, money, nerves? A 5c bar of EASY TASK will do it. Put it in your next grocery order.

Becoming.

"That dress is becoming, my dear," said the man who thinks he is a diplomatist.

She looked at him coldly for a moment and then replied:

"Yes. It is becoming threadbare."

Rain falls more frequently between 8 o'clock and 8 o'clock in the morning than at any other times during the twenty-four hours.

NEWMAN'S BAZAAR,

"The Store That Never Disappoints."

"By and By" and "By the Bye."

Johnson's definition of "by and by," now generally written "by and bye," is "in a short time," corresponding to the French tout a l'heure, and Shakespeare uses it to express the immediate as distinguished from the more remote future:

Now a sensible man, by and by a fool and presently a beast.—Othello.

If we knew how "by" came to be indicative of the present the second "by" might be assumed to signify beyond.

"By the bye" was in Johnson's time used in a different, almost opposite, sense to that in which we now employ it as an equivalent to the French a propos, not as expressive of something apposite, but, on the contrary, as, according to Johnson, "something not the direct and immediate object of regard." In neither case is the employment of "by" in these two familiar expressions accounted for.—Notes and Queries.

Robbed the Grave.

A startling incident is narrated by John Oliver, of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Then I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50 cents, guaranteed by Will Reed, Charles T. Larkins, C. G. Anderson, J. D. Holloway, druggists.

CATARRH A COMMON COMPLAINT.

Catarrh begins with a stubborn cold in the head, inflammation or soreness of the membrane or lining of the nose, discharge of mucus matter, headache, neuralgia and difficult breathing, and even in this early stage is almost intolerable. But when the filthy secretions begin to drop back into the throat and stomach, and the blood becomes polluted and the system contaminated by the catarrhal poison, then the sufferer begins to realize what a disgusting and sickening disease Catarrh is. It affects the kidneys and stomach as well as other parts of the body. It is a constitutional disease and as inhaling mixtures, salves, ointments, etc., are never more than palliative or helpful, even in the beginning of Catarrh, what can you expect from such treatment when it becomes chronic and the whole system affected? Only such a remedy as S. S. S. can reach this obdurate, deep-seated disease and purge the blood of the catarrhal poison. S. S. S. purifies and builds up the diseased blood, and the inflamed membranes are healed and the excessive secretion of mucus ceases when new, rich blood is coming to the diseased parts, and a permanent cure is the result.

S. S. S. is guaranteed purely vegetable and a reliable remedy for Catarrh in all stages. Write if in need of medical advice; this will cost you nothing.

PROBATE MATTERS

Wills Filed and Questions Submitted to the Court For Decision.

Lisbon, April 8.—(Specia.)—K. F. and L. C. Hawkins have qualified as executors of John Hawkins, late of Lisbon. Appraisers, P. M. Armstrong, W. W. Henry and Reed Wilcoxen.

The will of the late Samuel Mick, of Madison township, has been admitted to probate. It leaves all the property to the widow, to be used by her for her support, at her death to go to the son, Thomas Allison Mick. The farm of 140 acres will descend to the son, who is directed to make certain bequests to the remaining children. The faithful performance of this requirement is made a charge on the farm. Thomas A. Mick is named as executor.

The will of the late Jane Hannum, of Washington township, has been filed for probate and the application set for a hearing April 23. To the daughter, Elizabeth Bussell, is left a house and three lots in Highlandtown and a farm of 160 acres and an adjoining tract of 14 acres. All the personal property is left to this daughter, who is instructed to give \$200 each to the remaining children, Margaret L. Louden and Andrew, James and Joseph Hannum. Mrs. Bussell is named as executrix without bond.

Ordinary household accidents have no terrors when there's a bottle of Dr. Thomas' Electric Oil in the medicine chest. Heals burns, cuts, bruises, sprains. Instant relief.

SALINEVILLE

Salineville, April 8.—James George, of Scroggsfield, was in town Wednesday. He is a prominent stock dealer in Carroll county.

The Dresden pottery is shipping ware daily to a southern market.

The funeral of Miss Belle Gallagher took place Wednesday from her late home on Main street. The remains were brought here Tuesday noon from Cleveland, where she died a few days ago, at the home of a sister, where she had been sick for a few months. Interment was made at Summitville and the body followed to the grave by a large concourse of friends and neighbors. Services were held at the chapel at Summitville.

H. A. Thompson, the banker, accompanied by one of the Hetherington brothers, made a business trip Wednesday to the Belmont county coal fields.

Henry Miller and wife, of Wattsville, were in town, the guests of Armstrong Lowther, in the West End. They closed a contract with him for 80 acres of land in Fox township.

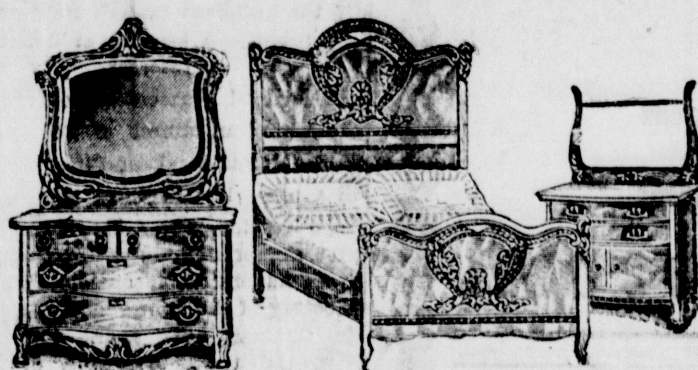

James Allmon, of Greenbriar, near Pine Hill, was in town Wednesday, the guest of Mr. and Mrs. R. G. Thompson.

CATARRH A COMMON COMPLAINT.

Catarrh begins with a stubborn cold in the head, inflammation or soreness of the membrane or lining of the nose, discharge of mucus matter, headaches, neuralgia and difficult breathing, and even in this early stage is almost intolerable. But when the filthy secretions begin to drop back into the throat and stomach, and the blood becomes polluted and the system contaminated by the catarrhal poison, then the sufferer begins to realize what a disgusting and sickening disease Catarrh is. It affects the kidneys and stomach as well as other parts of the body. It is a constitutional disease and as inhaling mixtures, salves, ointments, etc., are never more than palliative or helpful, even in the beginning of Catarrh, what can you expect from such treatment when it becomes chronic and the whole system affected? Only such a remedy as S. S. S. can reach this obstinate, deep-seated disease and purge the blood of the catarrhal poison. S. S. S. purifies and builds up the diseased blood, and the inflamed membranes are healed and the excessive secretion of mucus ceases when new, rich blood is coming to the diseased parts, and a permanent cure is the result.

S. S. S. is guaranteed purely vegetable and a reliable remedy for Catarrh in all stages. Write if in need of medical advice; this will cost you nothing.

Banana Crop Every Fifteen Days.

"There is evidently an erroneous idea abroad concerning the harvesting of the banana crop," said a man who has been for seven years on a plantation in Honduras.

"The statement that four or five crops of bananas are harvested a year is entirely incorrect. A crop is harvested on an average of every fifteen days throughout the year. Each thrifty banana plant has many suckers or stalks growing from a single root at the same time. One or more bunches of the ripening fruit are cut from a single stalk, while the other stalks growing from the same root are left untouched, and in fifteen days another of the stalks is shorn of its fruit. This process continues incessantly during the year. In July and August it is necessary to cut off the ripening bunches every ten days, while in December and January about once a month is sufficient, the average throughout the year being practically fifteen days."—Mexican Herald.

Who Were They?

To one great fact do all the most ancient epochs of history bear witness; one and all they prove the existence in a yet more remote past of an already advanced civilization such as could only have been gradually attained after long and arduous groping. Who were the inaugurators of this civilization? Who were the earliest inhabitants of the globe when they lived? By what flora and fauna were they surrounded? But science pushes her inquiry yet further. She desires to know the origin of the human race—when, how and why men first appeared upon the earth, for, from whatever point of view he is considered, man must of necessity have had a beginning—"Manners and Monuments of Prehistoric Peoples."

A Thoughtful Man.

M. M. Austin, of Winchester, Ind., knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. The Razor Crank.

"A man may be quite rational and reasonable in all ordinary affairs and yet be quite daffy on the subject of razors," said the barber. "I have one customer, for instance, who keeps six razors here—one for every day in the week that a man is supposed to get shaved—and pays me to hone them every week. Some mornings I have to try them all on him before he stops grumbling and even then may have to use one of my own razors. At other times he will order me to use the same razor for a week or two. I can't fool him by changing it either."

"Another customer who comes in only for an occasional shave talked to me for six months about the fine razor he had at home. I told him that as we seemed to have none in the shop to suit him I should be obliged if he would bring it around for me to look at. He did. Well, sir, it was a meat ax. I would as soon think of shaving a man with a carving knife. But I shaved him with it, and he never peeped."—New York Press.

Dante Rossetti's Practical Joker.

One day Howell picked up a treasure in the form of a piece of old blue Nankin. He invited a party of friends to come and admire it, and Rossetti surreptitiously carried it home with him and invited the same party to come and view an equally fine piece of china in his own possession. But Howell had his revenge. Guessing what had happened, he found his way to Rossetti's hiding place, took away the china and put another dish in its place. When the party assembled Rossetti was challenged to produce the china.

He returned to the dining room with the package and began to carefully remove the wrappings. As the dish became uncovered a curious puzzled expression came over his face, and when it was entirely exposed to view he stood still in blank astonishment. For a few moments he was silent; then his pent up feelings burst out in a wild cry: "Confound it! See what the spirits have done!"

Every one rose to look at the dish. A dish it was certainly, but what a dish! Instead of the beautiful piece of Nankin that was expected there was only an old delft thing, cracked, chipped and discolored through the numerous bakings it had undergone.

Stopping an Artery.

The prompt application of the tourniquet or even of the finger to stop the bleeding of an artery before the doctor comes will often save life. A wound anywhere below the middle of the upper arm or below the middle of the thigh may be easily stopped by a tourniquet. The simplest improvised form of this implement, which may be always found ready to hand, is a linen handkerchief and a strong stick. The best place to apply the tourniquet for a wound of the arm is above the elbow, where the pulsations of an artery may be felt by any one.

The handkerchief should be tied around the arm rather loosely; the stick is thrust in and turned to tighten it until the blood ceases to flow. Of course this is only a temporary relief till the coming of the doctor, who, in case of serious bleeding, must be summoned as soon as possible. When you have nothing at hand in a case of sudden accident even the pressure of the forefinger and the thumb over the wound may arrest the flow of blood for the time.

The People Next Door.

The reason why the people next door are invariably regarded as most worthy of our javelins is plain to me. They have a piano. I do not know of any race that is quite so unpleasant as the people next door. They are not like any ordinary people who live elsewhere. They obtain their music on the hire system, as it were, and it is generally of the type we most detest. Are we worldly minded? They chasten us obtrusively with hymns—or Mendelssohn, who is for some obscure reason regarded as a moral force in the suburbs. Are we of the elect? They hurl at us with defiant persistence the latest blood curdler from the "halls." The thing that passes with them for a piano is called upon to do the work of three, and the wall dividing our respective houses, be it borne in mind, is a beautiful conductor of sound.—Outlook.

Washing Woollens

is one of the housewife's most trying tasks. They are practically ruined if they shrink. To prevent it you must be particular about your laundry soap. When it's EASY TASK you're safe. Your woollens may be washed with it for years without fear of their shrinking. You've seen comparatively new woollens full of holes after washing, looking as if the moths had dined on them. Poor soap did that. EASY TASK isn't that kind—it's pure, white, clean, all through, without an injurious ingredient. That makes its use a pleasure and a satisfaction. If you are like most women you have had your woollens shrink and wear full of holes, because some cheap yellow laundry soap was used. Isn't it about time to save your clothes, money, nerves? A 5c bar of EASY TASK will do it. Put it in your next grocery order.

Becoming.

"That dress is becoming, my dear," said the man who thinks he is a diplomat. She looked at him coldly for a moment and then replied: "Yes. It is becoming threadbare."

Rain falls more frequently between 8 o'clock and 8 o'clock in the morning than at any other times during the twenty-four hours.

"By and By" and "By the Bye." Johnson's definition of "by and by," now generally written "by and bye," is "in a short time," corresponding to the French tout a l'heure, and Shakespeare uses it to express the immediate as distinguished from the more remote future:

Now a sensible man, by and by a fool and presently a beast.—Othello.

If we knew how "by" came to be indicative of the present the second "by" might be assumed to signify beyond. "By the bye" was in Johnson's time used in a different, almost opposite, sense to that in which we now employ it as an equivalent to the French a propos, not as expressive of something apposite, but, on the contrary, as, according to Johnson, "something not the direct and immediate object of regard." In neither case is the employment of "by" in these two familiar expressions accounted for.—Notes and Queries.

HUNDREDS TO ATTEND THE MASS MEETING

Wellsville People Will Go to East Liverpool to Boom MacDonald For Auditor.

Many extra cars will be required to convey those voters from Wellsville who desire to attend the political meeting at East Liverpool this evening. At noon today it was known that several hundred Wellsville voters will be at this meeting, which has for its base, the placing of the name of Prof. J. L. MacDonald upon the ballots for auditor at the fall election.

It was given out in Wellsville today that some people from Salineville would also attend this meeting, while a number from the nearby country districts will attend. The meeting is looked forward to with interest in this end of the county.

Delayed by Landslide.

A landslide about 60 feet in length, occurred last night near Summitville, which required about five hours to clear from the Cleveland & Pittsburg tracks. The 5 o'clock train this morning was delayed an hour. No one was injured.

Money For Postoffice Work.

Money for the completion of the postoffice improvements has been certified by Auditor McGregor, to Clerk Sinclair, of the board of service. By this notice a fight of over a year's duration has been ended. The contractors are preparing to commence the improvements Monday and expect to finish in about two weeks.

First Bicycle Theft.

The first bicycle theft of the season was reported to Chief of Police Houser yesterday afternoon. An immediate investigation of the affair was made, and it was found that instead of the wheel being stolen, it was borrowed. The wheel was returned later in the afternoon to its owner.

Clears Away Flood Mud.

Commerce street has been cleared of all the mud that was deposited there as a result of the recent flood. In some places this deposit was six inches deep. Some sewers that were clogged with debris in the west end of the city have been opened, and they are now ready for the next heavy rainfall.

Miss Marie McIntosh, who has been visiting friends in Wellsville for several days, returned home yesterday.

ECUMENICAL CONFERENCE

Of the Lutheran Church Held at Pittsburgh—A Meeting of Great Interest.

The third ecumenical conference of the Lutheran church of North America, held this week at Pittsburgh, came to a close last evening, after a three days' session, with a choral vesper service, comprising the entire church year from advent to ascension. The next meeting of the conference will be held in Chicago next year. Representatives from 206 churches, embracing every state in the union, took part. While there were differences of opinion on non-essential matters of church polity, there was absolute agreement on the fundamental doctrines.

Rev. J. G. Reinhart, of this city, who attended the conference, will write his impressions thereon and a resume of the stand taken on important questions will appear in this paper next Monday. At the vesper services, which lasted two hours and a half, music which had been out of use for a century, was revived and will be introduced in church services, it proving most inspiring and edifying.

A special program has been arranged for the choral vesper services at St. John's church for next Sunday, in which the entire congregation and Sunday school will take part. A printed program will be distributed to serve as a guide. Prof. H. W. Roth, D. D., former president of Thiel college, will preach the sermon. He is well known throughout this city and this section as an able and scholarly speaker.

Thank Offering Taken.

What Is This Advertisement

But a gentle reminder to remember the Erlanger store when you want the best—the most moderately priced. A sale is not considered made here just because you have handed in the money. Should another store keeper succeed in convincing you that your purchase here has not been advisable, money back. Isn't that fair?

AUCTION SALE

Wednesday and Thursday, April 13th and 14th.

My entire livery stock, consisting of single and double driving and coach horses, coaches, surreys, buggies, runabouts and single and double harness and all other stock included in my livery stable, Seventh street, will be sold at auction April 13 and 14.

My contracting business has grown to such proportions that I have decided to close out this branch of my business in order to devote more time to contract work.

Any one wishing to buy privately

will do well to call previous to above dates.
